## Dainty Satchels

Fresh from Paris

Often this season does the purse or hand-satchel figure amongst wedding gifts. Certainly many of the elegant specimens we are showing are works of art, over which almost any bride would rhapsodize. These lovely bags are exploited in every conceivable shade of suede-like leather, some ornamented with the chastest of enamelwork, and many other styles. For midsummer use in particular there is an endless assortment. Hundreds of other appropriate gift-goods, including:

- Parisian Brass-mounted Photo Frames.
- Elegant Brass-mounted Jewel Cases, with ivory hand-painted centrepieces.
- French Book Marks, with choice gold and enamel finish.
- French Calfskin Handbags, etc., etc.

All very beautiful and exclusive, and, above all, bearing the seal of la mode's approval, and just fresh from France.

## PRAIRIE LANDS BRING GOOD PRICES AT AUCTION

Farmers Show Confidence by Eagerness to Buy School Sections

## CROP PROSPECTS ENCOURAGING

Reports From Many Points Indicate That Grain is Doing Very Well at Present

Winnipeg, June 28.—The sale of school lands today quite set at rest the wild rumors of a great market manipulator and croaker outside of western Canada, who have been predicting crop failure and financial stringency in the western provinces. One hundred and twenty-four sections were sold to bona fide farmers for an aggregate sum of \$200,000. The highest price paid was \$28 per acre, a remarkably good figure for wild lands, and the lowest was \$7. All of the farmers were anxious to increase their holdings, and had the money to do it.

Throughout the Northwest crop conditions are all that could be desired. The reports for the past week received by the C. P. R. go to show that the grain is doing very well, and excellent growth has been made during the past few days. At Edinburg, wheat is up 12 to 14 inches, and no damage has been done. Moose Jaw has stalks up a foot, but generally throughout Saskatchewan the average is 6 inches and upwards. In some cases heavy rain is reported, but no damage has been done so far. In many of the Manitoba centres abundant rain reports has been the rule, and consequently the grain looks excellent. Payson reports show that the crops are expected to exceed last year's. Battleford crops are more advanced than last year, and if there is no summer frosts, the crop will be remarkable.

At Vegreville wheat is from four to fourteen inches high. The Emerson and Minto sections all report favorably, and the farmers are cheerful. At Swan Lake, grain is doing well, and the heavy rains of Wednesday and Thursday were just what was needed. Minto and Dunrea require more rain. At Fairfax the farmers look forward to a good harvest, around Carman the crop situation is satisfactory and throughout the Wawanesa country more rain is needed, but the grain has not yet suffered. Around Regina prospects are the very brightest for a bountiful crop.

Crops in the neighborhood of Esterhazy are almost as far advanced as last year. The weather is very favorable.

### Wound from Blank Cartridge.

Kingston, Ont., June 28.—Geo. Armstrong, a soldier in the 49th regiment, was shot in the arm with a blank cartridge fired from a passing G. T. R. train. Men of the 49th regiment, of Belleville, were in the car. The military authorities will make an investigation. Armstrong received a bad wound.

## A BRITISH COMBINE IN STEEL AND IRON

Nine Big Companies Unite and Absorb Many Smaller Concerns

London, June 28.—A great combination of iron and steel manufacturers is being formed in Great Britain to combat American and German competition, control the British trade and dominate the steel industry of the world.

Nine big companies, headed by Vickers, Sons & Maxim, have absorbed 46 independent concerns, giving them control of 30 per cent. of the steel produced in Great Britain. The combined capital of the firms is over \$130,000,000.

### PRESIDENT ROSS' PLAN

Buying up Dominion Iron and Steel Shares in Large Blocks

Montreal, June 28.—James Ross, president of the Dominion Coal Co., is credited with having bought two thousand shares of Dominion Iron and Steel common shares in the stock market to add to his already large holdings, and it is claimed that another thousand shares went to his credit this morning. The stock has within a few days risen from 18 to 34 3/8, the latter being the highest for this morning. With the big suit pending against the coal company, of which he is president, and the present directors known to be comparatively small holders of steel stock, a big representation at the annual meeting on July 5 by President Ross might put a different complexion on the fight.

### Fine on Steamer

New York, June 28.—The steamer Madonna, from Mediterranean ports, today was damaged by fire caused by spontaneous combustion in one of the holds. No one was injured.

### Predicts Miners' Strike.

Denver, Col., June 28.—Addressing the convention here today of the Western Federation of Miners, Robert Randall, of Goldfield, Nevada, predicted a general strike of all the miners throughout the country.

### RESCUED BY BOY

Three Men Saved From Drowning in Niagara River

Niagara Falls, Ont., June 28.—A 15 year old boy named Dick Carpenter, was the means of saving three men from drowning in the lower Niagara river. The men were James Stewart, of Queenstown, James Scott and Victor Lidger, of Lewiston, all fishermen. They went out on the river in a skiff and got caught in a whirlpool. The skiff shipped water and they were thrown out. Young Carpenter put out in a sail boat to their aid. Scott and Lidger were able to catch his boat and climb in, but Stewart was helpless. Scott grabbed for him and got his hat, but the man went down. When he arose for the last time Lidger managed to catch him, but could not get him into the boat, and Scott and Carpenter pulled the boat to shore and Lidger dragged Stewart behind. He was nearly dead, and it took a doctor some time to resuscitate him.

### AUTOMOBILE DISASTER.

Run-away Car Seriously Injures Some Children.

Toronto, June 28.—Coming down Norway hill, in the eastern part of the city, last night, at a furious rate of speed, an automobile owned by Herman Kerlich, containing five men, ran into a hole, smashing the engine and springs, switched off the road over a group of children, breaking both the legs of 13-year-old Harold Baker, son of Chas. Baker, severely injuring Ina Wame, aged 12, and slightly injuring her little brother. The auto ran right over the Baker boy, and others were carried fifteen feet before the wrecked machine came to a standstill.

The five occupants of the car were thrown out or jumped when the springs broke.

## SPEAKER SUTHERLAND MAY JOIN CABINET

Named as Mr. Hyman's Successor—Ordnance Factory May Be Established

Ottawa, June 28.—Thirty-two candidates passed the Royal Military College entrance examination for cadetships. E. O. Wheeler, of Calgary, heads the list. There are no British Columbians among the successful.

It is stated that Speaker Sutherland is right in line for a portfolio in succession to Hon. C. S. Hyman. Should he get it, Mr. Marcell will succeed him as speaker.

E. J. Morgan, of Vancouver, has been appointed third-class excise officer on probation.

Negotiations with the Ottawa Car Company and a Coventry firm to establish an ordnance factory in Ottawa are said to be off. It is likely that the government will undertake the work in view of the decision of the colonial conference that each colony should manufacture its own arms and munitions.

## MINISTERS IN PARIS

Enterain Hope of Trade Arrangement With France

Paris, June 28.—The British chamber of commerce today gave a luncheon in honor of Sir Wilfrid Laurier, the Canadian premier, and his colleagues, W. S. Fielding, the minister of finance, and L. F. Brodeur, the minister of marine.

During the luncheon given by President Laurier yesterday there was a lengthy discussion regarding an advantageous commercial arrangement between Canada and France, negotiations of which now can be regarded as officially begun.

The Associated Press learns that the visit of the Canadian statesmen to Italy was unproductive of results. They have abandoned also the idea of coming to any agreement with Belgium and Germany at present, but they still hope to accomplish something there. The French government is too busily engaged to proceed with negotiations with the Canadians. Hon. Mr. W. S. Fielding, the minister of finance will therefore remain here until parliament takes a recess. Premier Laurier and Mr. Brodeur will leave Paris for London on June 30th.

## Board of Trade Action.

Toronto, June 28.—At a meeting of the board of the Toronto Board of Trade today a resolution was passed that the board has learned with much satisfaction from Mr. Grigg of the intention of His Majesty's board of trade to appoint commercial correspondents throughout the Dominion, and desire to express their appreciation of interest taken by the Imperial government in the matter of increasing trade between the motherland and Canada. The board further respectfully submits the desirability of appointing a permanent head of the correspondents to reside in Canada. Copies of the resolution will be forwarded to the Canadian high commissioner in London and to Mr. Grigg.

### Burns in Oakland.

San Francisco, June 28.—Interest in the Stables-Burns fight for the world's heavyweight championship increased today when Tommy Burns arrived at Oakland from Harbin Springs and boxed six lively rounds with his sparring partner. The American champion will work in public up to two days before the fight.

### Beef Combine Insists

Calgary, June 28.—At the beef commission sitting at Glencliff the testimony of all went to show that there is a combine among the large buyers. The commissioners say there will be a very warm session at Winnipeg, as they are gathering incriminating evidence all along the line against certain firms.

## COLLISION OF TRAINS ON CANADIAN PACIFIC

Westbound Express and Extra Train Carrying Cheese Meet Head-On

Winnipeg, June 28.—A head-on collision occurred at 1 p.m. this evening between the west-bound express and an extra loaded with cheese. At Butler, two stations west of Regina, four Chesebrough and A. E. O'Connor, of St. John, N. B., guard men that train were probably fatally injured.

Several passengers on the west-bound express were also injured, but they are not believed to be seriously hurt.

Both engines, together with the baggage car and two coal cars on the extra were damaged.

Auxiliary trains were dispatched from Regina and Regina and doctors were carried to the scene by a light engine to render every possible attention to the injured.

The injured Chesebroughs were sent to Fort William on a special train. Traffic was not long delayed.

## NEW YORK BONDS

Attempt to Sell \$29,000,000 Resulted in Failure

New York, June 28.—An attempt to dispose of \$29,000,000 of New York city four per cent. bonds, for which bids had been invited for several days, proved a failure today, when the bids were opened. It was found that \$25,000,000 of the bonds had been subscribed for. There were 57 bids, all of small amounts, at prices ranging from 100 to 100.25.

Comptroller Wetz, announced that the amounts subscribed for will probably be allotted to bidders. The remaining \$4,000,000 will be re-advertised. Mr. Wetz said no advance will be made in the interest. He ascribes the failure to the present condition of the money market. At the last sale of city bonds in February a little better than par was realized. The bonds offered today, with the exception of \$2,000,000, are to run for fifty years.

## THE TACK COMBINE

Proceedings Against Members Likely to Be Pushed

Toronto, June 28.—Now that Sir William Mulock has given his decision in the plumbers case the crown will resume proceedings against the "tack combine," the members of which are at present under indictment. The list of firms the officers of which have been indicted in connection with the "tack combine" are as follows: Portland Portland Mills Co., St. John, N. B., Montreal Portland Mills, the Ontario Tack Co., Hamilton, The Peck-Benny Co., Montreal, Pillow Hersey Co., Montreal and Guelph, James Pender Co., St. John, N. B.

Their case is a difficult one in several ways, and a test case will probably have to be tried to settle whether they are liable or not.

## WILL BUILD DOCKS AT PORT SIMPSON

Hudson Bay-Pacific Railway to Commence Work at Once

A party of engineers for the Hudson Bay Pacific railway are expected to arrive in Victoria today en route to Port Simpson to commence work on the construction of railway docks at the place. The engineers who are coming by way of Seattle will lay out the docks for the company and as soon as this has been done the work of building an ocean dock will commence and it is expected will be completed before September.

Malcolm L. Macdonald and a party of directors of the road, with surveyors and engineers, will arrive in Victoria the middle of July. They will go to Port Simpson and from there will go over the route of the road eastward up the Skeena river, through the Peace river district, and meet a party of surveyors which started from the Athabasca lake district last week.

Two parties of engineers and surveyors are now at work laying out the route of the new road. One started from Port Churchill, on Hudson Bay, to work westward, and the other from the Athabasca lake district to work toward the Pacific Ocean.

All surveys and preliminary work will be completed by fall.

## NEW YORK COMMON SENSE ON PUBLIC UTILITIES

Extraordinary Powers Over Corporation's Are Given by the Bill

Albany, June 28.—Favorers of the most extraordinary and sweeping character have been given the public utilities commission, appointed by Governor Hughes today.

The bill creating the commission, which was unanimously adopted by Governor Hughes, marked a new step in the history of public utility regulation in this state. It gives the commission extraordinary powers over the corporations, and the bill is expected to be passed by the legislature.

## DOMINION DAY EVENTS

Domination Day which is a general holiday, essentially a quiet day in Victoria, and in former years has been the occasion of a number of private picnics and outings at the various resorts nearby. The celebration at Vancouver, while not on such a large scale as last year gives promise of being very enjoyable and no doubt Victoria will sent over its usual quota of holiday makers. The C. P. R. have named a special excursion rate to Victoria and Chatter, which will operate on their usual schedule.

Along the line of the E. N. Railway excursion rates are named to all points and an afternoon train service similar to Saturdays and Sundays has been arranged. The United Presbyterian churches will hold their annual picnic at Goldstream and have arranged for an adequate train service from this city. Another outing which will be expected to prove the most enjoyable one, is the excursion arranged to witness the regatta and water carnival at Cowichan bay. The City of Nanaimo will sail from the C. P. R. docks at 9 a. m. on Monday and returning will arrive at about 9.30 p. m. and given fine weather the trip will be most enjoyable especially through the picturesque Gulf Islands. The City of Nanaimo is an ideal excursion steamer having large roomy decks while on the smooth inland gulf waters there is absolutely no motion to be experienced.

## DISCREDITING ORCHARD IN THE IDAHO TRIAL

More Witnesses for the Defense Deny His Statements on the Stand

Boise, Idaho, June 28.—The attorneys for Wm. D. Hayward continued today to centre their efforts upon discrediting Harry Orchard and establishing their assertion that Orchard killed Steunenberg in revenge for the loss of his interest in the Hercules mine. They directly attacked Orchard's account of the Vindicator mine explosion with the testimony of a witness which made it appear accidental rather than criminal.

Thomas Wood, a non-unionist who entered the Vindicator mine as a timberman after the strike began, swore that the night before the explosion he placed a box containing 25 pounds of gun powder in the shaft at the eighth level. He saw the powder the next morning shortly after 10 o'clock, and a few minutes later Supt. McCormick and Foreman Beck came to the eighth level. They remained but a short time, and left for the sixth level, where they were killed. Wood swore that when he reached the shaft twenty minutes later the powder was gone, and that it was a reasonable inference that McCormick and Beck took it with them. Wood testified further that he had seen a revolver in Beck's pocket, that the fragments of only one revolver were found in the eighth level after the explosion, and that the positions of the bodies of McCormick and Beck indicated to him that the explosion occurred between them.

Orchard swore that he arranged a revolver with a wire attached so that when the safety bar was raised it would send a bullet into the giant powder he had placed ready.

One witness for the state has sworn that he found a wire attachment to the safety bar, but Wood testified today that he carefully examined the safety bar and found nothing attached to it.

W. Easterly and C. D. Copley both swore that they heard Orchard mention his loss in the Hercules mine and threaten to kill Steunenberg for it. Counsel in cross-examination for the state scored Easterly because he received two letters and a telephone message from Orchard on the eve of Steunenberg's murder, and scored Copley for remaining quiet when the two men knew crime might be committed. Easterly contended that he did not know Steunenberg lived at Caldwell, and explained that although he knew Thomas Hogan was Orchard he took no steps immediately after the crime except to consult counsel for the Federation, because he was not an informer. Copley asserted that he did not take Orchard seriously when they met in San Francisco and Orchard told him of the Bradley crime.

Dr. L. McGee had testified that he saw Orchard in the Cour d'Alenes in 1904 with a man named Cunningham to whom Orchard claims to have given the Peabody bomb. Dr. McGee was unable today to describe Cunningham.

W. Easterly was recalled to the stand and denied that he talked with Orchard about the Independence depot explosion. He said Orchard mined a little and gambled on Crisp Creek in 1903 and 1904. Easterly said the only man who had talked violence at the meetings of the federation was a mine owner's agent. Moyer and Haywood had always counselled peace. Easterly said he was arrested at Crisp Creek and thrown into the "bull pen." He was in bed when the Independence depot explosion occurred and knew nothing of it till next morning. He went to Victor to get out of the way of the soldiers.

## EXPLOSION IN VINDICATOR MINE

Evidence Intended to Show That it Was Accidental—More of the Revenge Theory

Boise, Idaho, June 28.—The attorneys for Wm. D. Hayward continued today to centre their efforts upon discrediting Harry Orchard and establishing their assertion that Orchard killed Steunenberg in revenge for the loss of his interest in the Hercules mine. They directly attacked Orchard's account of the Vindicator mine explosion with the testimony of a witness which made it appear accidental rather than criminal.

Thomas Wood, a non-unionist who entered the Vindicator mine as a timberman after the strike began, swore that the night before the explosion he placed a box containing 25 pounds of gun powder in the shaft at the eighth level. He saw the powder the next morning shortly after 10 o'clock, and a few minutes later Supt. McCormick and Foreman Beck came to the eighth level. They remained but a short time, and left for the sixth level, where they were killed. Wood swore that when he reached the shaft twenty minutes later the powder was gone, and that it was a reasonable inference that McCormick and Beck took it with them. Wood testified further that he had seen a revolver in Beck's pocket, that the fragments of only one revolver were found in the eighth level after the explosion, and that the positions of the bodies of McCormick and Beck indicated to him that the explosion occurred between them.

Orchard swore that he arranged a revolver with a wire attached so that when the safety bar was raised it would send a bullet into the giant powder he had placed ready.

Malcolm L. Macdonald and a party of directors of the road, with surveyors and engineers, will arrive in Victoria the middle of July. They will go to Port Simpson and from there will go over the route of the road eastward up the Skeena river, through the Peace river district, and meet a party of surveyors which started from the Athabasca lake district last week.

Two parties of engineers and surveyors are now at work laying out the route of the new road. One started from Port Churchill, on Hudson Bay, to work westward, and the other from the Athabasca lake district to work toward the Pacific Ocean.

All surveys and preliminary work will be completed by fall.

## NEW YORK COMMON SENSE ON PUBLIC UTILITIES

Extraordinary Powers Over Corporation's Are Given by the Bill

Albany, June 28.—Favorers of the most extraordinary and sweeping character have been given the public utilities commission, appointed by Governor Hughes today.

The bill creating the commission, which was unanimously adopted by Governor Hughes, marked a new step in the history of public utility regulation in this state. It gives the commission extraordinary powers over the corporations, and the bill is expected to be passed by the legislature.

## DOMINION DAY EVENTS

Domination Day which is a general holiday, essentially a quiet day in Victoria, and in former years has been the occasion of a number of private picnics and outings at the various resorts nearby. The celebration at Vancouver, while not on such a large scale as last year gives promise of being very enjoyable and no doubt Victoria will sent over its usual quota of holiday makers. The C. P. R. have named a special excursion rate to Victoria and Chatter, which will operate on their usual schedule.

Along the line of the E. N. Railway excursion rates are named to all points and an afternoon train service similar to Saturdays and Sundays has been arranged. The United Presbyterian churches will hold their annual picnic at Goldstream and have arranged for an adequate train service from this city. Another outing which will be expected to prove the most enjoyable one, is the excursion arranged to witness the regatta and water carnival at Cowichan bay. The City of Nanaimo will sail from the C. P. R. docks at 9 a. m. on Monday and returning will arrive at about 9.30 p. m. and given fine weather the trip will be most enjoyable especially through the picturesque Gulf Islands. The City of Nanaimo is an ideal excursion steamer having large roomy decks while on the smooth inland gulf waters there is absolutely no motion to be experienced.

## DISCREDITING ORCHARD IN THE IDAHO TRIAL

More Witnesses for the Defense Deny His Statements on the Stand

Boise, Idaho, June 28.—The attorneys for Wm. D. Hayward continued today to centre their efforts upon discrediting Harry Orchard and establishing their assertion that Orchard killed Steunenberg in revenge for the loss of his interest in the Hercules mine. They directly attacked Orchard's account of the Vindicator mine explosion with the testimony of a witness which made it appear accidental rather than criminal.

Thomas Wood, a non-unionist who entered the Vindicator mine as a timberman after the strike began, swore that the night before the explosion he placed a box containing 25 pounds of gun powder in the shaft at the eighth level. He saw the powder the next morning shortly after 10 o'clock, and a few minutes later Supt. McCormick and Foreman Beck came to the eighth level. They remained but a short time, and left for the sixth level, where they were killed. Wood swore that when he reached the shaft twenty minutes later the powder was gone, and that it was a reasonable inference that McCormick and Beck took it with them. Wood testified further that he had seen a revolver in Beck's pocket, that the fragments of only one revolver were found in the eighth level after the explosion, and that the positions of the bodies of McCormick and Beck indicated to him that the explosion occurred between them.

Orchard swore that he arranged a revolver with a wire attached so that when the safety bar was raised it would send a bullet into the giant powder he had placed ready.

One witness for the state has sworn that he found a wire attachment to the safety bar, but Wood testified today that he carefully examined the safety bar and found nothing attached to it.

W. Easterly and C. D. Copley both swore that they heard Orchard mention his loss in the Hercules mine and threaten to kill Steunenberg for it. Counsel in cross-examination for the state scored Easterly because he received two letters and a telephone message from Orchard on the eve of Steunenberg's murder, and scored Copley for remaining quiet when the two men knew crime might be committed. Easterly contended that he did not know Steunenberg lived at Caldwell, and explained that although he knew Thomas Hogan was Orchard he took no steps immediately after the crime except to consult counsel for the Federation, because he was not an informer. Copley asserted that he did not take Orchard seriously when they met in San Francisco and Orchard told him of the Bradley crime.

Dr. L. McGee had testified that he saw Orchard in the Cour d'Alenes in 1904 with a man named Cunningham to whom Orchard claims to have given the Peabody bomb. Dr. McGee was unable today to describe Cunningham.

W. Easterly was recalled to the stand and denied that he talked with Orchard about the Independence depot explosion. He said Orchard mined a little and gambled on Crisp Creek in 1903 and 1904. Easterly said the only man who had talked violence at the meetings of the federation was a mine owner's agent. Moyer and Haywood had always counselled peace. Easterly said he was arrested at Crisp Creek and thrown into the "bull pen." He was in bed when the Independence depot explosion occurred and knew nothing of it till next morning. He went to Victor to get out of the way of the soldiers.

## WILL BUILD DOCKS AT PORT SIMPSON

Hudson Bay-Pacific Railway to Commence Work at Once

A party of engineers for the Hudson Bay Pacific railway are expected to arrive in Victoria today en route to Port Simpson to commence work on the construction of railway docks at the place. The engineers who are coming by way of Seattle will lay out the docks for the company and as soon as this has been done the work of building an ocean dock will commence and it is expected will be completed before September.

Malcolm L. Macdonald and a party of directors of the road, with surveyors and engineers, will arrive in Victoria the middle of July. They will go to Port Simpson and from there will go over the route of the road eastward up the Skeena river, through the Peace river district, and meet a party of surveyors which started from the Athabasca lake district last week.

Two parties of engineers and surveyors are now at work laying out the route of the new road. One started from Port Churchill, on Hudson Bay, to work westward, and the other from the Athabasca lake district to work toward the Pacific Ocean.

All surveys and preliminary work will be completed by fall.

### Site for Sanitarium

Vancouver, June 27.—Dr. Fagan has returned from the interior, where he has been inspecting sites for the proposed sanitarium for consumptives. He has reduced the number of pos-

sible sites to four and will place before the public meeting on Friday the advantages of these places. The doctor has obtained photographs of all the districts he has visited and these will aid him in his address.

Of the four sites, Dr. Fagan personally favors two. In his opinion the land and surroundings at Fish Lake, near Kamloops, are the most suitable for the large sanitarium. There are many natural advantages in this district that the other proposed sites do not have. For the smaller hospital, to be used for those cases that are thought to be incurable, Dr. Fagan has chosen a site near North Bend, the division point on the C. P. R. between Kamloops and Vancouver.

A committee consisting of Mr. Marpole, Dr. Stevens, Rev. R. J. Wilson and Mr. R. P. Pettipiece will, with a committee from Victoria, make a trip of inspection at some date after the general meeting tomorrow.

Princess Christian has just celebrated her 61st birthday.

## PROVINCIAL W.C.T.U. ELECT OFFICERS

Mrs. Spofford of Victoria to Succeed Mrs. Watson as President

## RICH STRIKE AT ROSSLAND

Big Body of Free Gold Ore Is Reported to Have Been Found in War Eagle Mine

Vancouver, June 27.—Only one change was made in the officers of the provincial W.C.T.U. at the annual election yesterday. This was the election of Mrs. Spofford of Victoria to succeed Mrs. Watson as president. The election was by acclamation.

The other three officers re-elected are: Corresponding secretary, Mrs. H. A. Cunningham, who has been acting president for several months owing to the illness of Mrs. Watson, recording secretary, Mrs. Frank Andrews, Victoria, and treasurer, Mrs. Gordon Grant, Victoria.

Mrs. Spofford is one of the most earnest members of the W.C.T.U. in British Columbia and as provincial organizer has done much work against the greater difficulties.

In organizing a branch of the society at Grand Forks, B. C., notwithstanding the predictions of almost every woman temperance advocate in that city it could not be done, she decided to give a concert, but not a single woman would volunteer to take part.

At yesterday afternoon's session the following reports of departments were resumed:

Mothers' Meeting—Mrs. S. O. Sherwood, Victoria.

Exhibitions and Fairs—Mrs. (Dr.) Manchester Hammond.

Temperance Coffee Houses—Mrs. Riddell, Victoria.

Curfew Bell—Mrs. J. A. Halliday, Sandwick.

Sunday Observance—Mrs. Castleman, Langley Park.

Y.W.C.T.U. Work—Mrs. Gillespie, Cumberland.

Medal Contests—Mrs. S. H. Brown, Vancouver.

Purity Work—Mrs. S. J. Thompson, Victoria.

Report of Provincial Organizer—Mrs. Spofford.

In the evening, with Mrs. Spofford in the chair, Mrs. Skilling gave an interesting address upon the Loyal Legion Work, and Mrs. Macken's talk on Home and the children was thoroughly appreciated by the members.

Mrs. Cunningham presented the banner for the union obtaining the most members to Mrs. Thompson, president of Victoria union.

There were several choruses by the boys and girls, the boys' chorus being The Ballad Box, by the Mount Pleasant class.

The following work was taken up this morning: Reports of superintendents of departments: 9.30, provincial organizer's report, Mrs. Spofford; memorial service, and conference on purity conducted by Mrs. S. J. Thompson at 11 o'clock.

## STRIKE AT ROSSLAND

Free Gold Body Reported to Have Been Found in War Eagle

Rossland, June 27.—The greatest strike in the history of the province was made Tuesday. Every effort is being made to preserve secrecy about it but it is learned that on Tuesday a slab of ore more than seven feet in length and taking four men to move, was brought out of the War Eagle mine and washed. It is pyrrhotite, containing free gold visible on every surface, and running at a conservative estimate, from \$800 to \$1,000 a ton.

Free gold, to a small extent, has been known to exist in Rossland for centuries. Present values are absolutely unknown, but \$100-ore on the surface made the boom of 1895 and 1896.

Great excitement prevails on the streets. Knots of people everywhere are discussing the strike, and miners have secured pocket samples of the strike.

## COLONY OF FRUIT GROWERS

Twenty English Settlers Will Engage in Fruit Growing at Fruitvale

Rev. J. L. Brooks, of Lingfield, Surrey, Eng., president of the British Tourist and Colonization Society, of Liverpool has been making a tour of Western Canada in search of land suitable for a colony of English settlers, says the Nelson Canadian. As a matter of fact, his mission was to secure land for two colonies, one land for agriculturists, and the other for settlers who are anxious to engage in fruit growing. He reached Calgary a few weeks ago and interviewed J. S. Dennis, of the C. P. R. land department, and concluded arrangements for a large tract of C. P. R. irrigated land, which will be settled by agriculturists from England. Mr. Brooks then came to British Columbia with the object of obtaining a tract of land adapted to fruit growing. He looked at several blocks, and at last decided to close a deal with the Kootenay Orchard Association for 20 tracts of 10 acres each at Fruitvale (formerly Beaver), and secured an option on 50 10-acre tracts in addition. The land is situated 39 miles from Nelson, on the Nelson & Fort Sheppard railway. It is well adapted for fruit growing, and Mr. Brooks has returned to England to send out the settlers at once.

## DRY WEATHER AFFECTS CROPS

Hay, Late Grain and Roots on Fraser Valley are Stunted

New Westminster, June 27.—Reports received at the province office of this city in the last few days are to the effect that the crops in the Fraser Valley will be lighter than usual this year, owing to the continued dry weather.

Hay, late grain and roots crops will be particularly light owing to the drought. Grain sowed early has fared better and will be a good crop, and

roots put in early are doing well.

The fruit crop which it was thought would be light is turning out much better than expected and a splendid yield of cherries is being gathered, while plums, apples and most of the small fruits are doing well.

## Pioneer Mariner Dead

New Westminster, June 27.—The funeral took place at Chilliwack yesterday of Captain John Purdy, one of the oldest mariners in British Columbia waters. He was seventy-three years of age. Captain Purdy was master of the steamer Topic of Vancouver until a few months ago, when failing health compelled him to give up his position. He leaves a wife, now residing in Chilliwack.

## A TERRIBLE EXPERIENCE

Narrow Escape of Workman on Suspension Bridge Near Revelstoke

Vancouver, June 27.—Hanging for two hours in mid-air by one arm over the rushing waters of the Columbia river, unable to drop, or to climb to safety, was the terrible experience of Fred Dale, a workman engaged in repairing the Dominion government suspension bridge between Revelstoke and In the same accident that placed Dale in his agonizing position Captain Baker was killed.

The men were members of a gang of workmen stringing new wires for the support of the bridge. One of the big cables broke.

The broken cable and a bucket weighing many tons to drop. The bucket struck Baker and killed him instantly.

Dale became entangled in the mass of wires and instead of dropping into the whirling waters of the canyon, his arm caught in a loop of the wire and he was hung by the arm far below the bridge and yet just above the water. His fellow workmen worked hard to rescue him, but it was more than two hours before they found a boat and got him cut down.

The injured man was taken to a hospital at Revelstoke where it was found his arm was so badly stretched and torn by the long strain on it, that it was necessary to amputate it.

## GAMBLING TOOLS SMASHED

Summarily Put out of Business by Ladner Police

Vancouver, June 27.—Two men who started to operate a gambling feature at the Ladner races yesterday were summarily put out of business by the police.

The chuck-a-luck and roulette games had not been in operation five minutes when along came two constables. They did not wait to give warning, they simply kicked to pieces everything in sight. Even the tables and chairs of the gambling outfit were demolished. The wreckage was placed in a pile ready for burning.

The bookies fared no better. One man stood on a dry-crocks box and made a few passes on a blackboard with his chalk when the policeman discovered him. They put him out of work just the same as they had the young man with the "play-machines." The blackboard and chalk joined the pile of wreckage at the rear.

## Wedded at Westminster

New Westminster, June 27.—The wedding took place at St. Peter's cathedral at 7 o'clock yesterday morning of Mr. Daniel McIlroy, proprietor of the Cloverdale hotel, and Miss Cusher, also of Cloverdale. The ceremony was performed by Rev. Father Wagner.

## Real Estate Men Organize

New Westminster, June 27.—The real estate men of this city have organized a society called the "New Westminster Property Owners' Association," for mutual benefit and to advertise the city. Officers elected are: F. W. Baachus, J. H. Vidal and T. R. Pearson, executive committee, and E. H. Sands, secretary-treasurer.

## PRISONER GIVEN LIBERTY

G. H. McMillan, Inmate of B. C. Penitentiary Paroled

New Westminster, June 27.—G. H. McMillan, a prisoner of the British Columbia penitentiary in this city has been given his liberty for the rest of a ten-year term he was serving for arson. He has served for five years. McMillan has been a model prisoner during his entire term. A few months ago he figured as the hero in a sensational runaway which occurred on Columbia street, and by his coolness averted a fatal accident. Since that time the public has taken an interest in his case, and a petition for his pardon was signed by a large number, especially by business men along the main thoroughfare who witnessed the runaway.

McMillan left the penitentiary today and went to Vancouver, where he will undergo an operation for tumor. As soon as he is able to travel he expects to go to the Yukon to inspect some interests he holds there. Later he will return to this city and will reside somewhere in the district.

He was convicted of burning a steamer at Dawson.

## GREEN VS. WORLD PUB. CO.

Former Commissioner of Lands and Works Pressing His Suit

Vancouver, June 27.—Former Commissioner of Lands and Works, R. F. Green, is pressing his suit against the World Printing & Publishing company for \$20,000 damages for alleged libel contained in the pre-election Caron timber land grant article of January 22 with its ponderous heading, "Bribed Green with \$37,000 in Syndicate Stock." Preceding the trial of the action set for the July assizes, Mr. W. E. Burns for Mr. Green today sought an order of the court to deliver not uninteresting series of four questions which, on behalf of his client, Mr. Burns desires Mr. A. D. Taylor, managing director of the defendant newspaper, to answer.

These two interrogatories were not opposed by Mr. Whitemute, who appeared for the defendant company. "Is the defendant company the owner and publisher of the Vancouver World and did the company publish the articles complained of?"

"What was the gross and the net paid circulation of the edition containing the article?"

"I think the plaintiff is entitled to

have these answered," admitted Mr. Whitemute. "But I am opposed to the other two. Their delivery means that we are bound to answer."

The first of these was directed straight at the managerial head, Mr. Taylor:

"What position do you occupy in the defendant company?"

Mr. Justice Morrison—I think that is a proper question.

The second was:

"Who was the writer of the article, and who wrote the heading?"

Mr. Justice Morrison—I do not think the plaintiff is entitled to have that answered. It is the paper, Mr. Burns, you are after, and not the man, the writer, whoever he may be.

Mr. Burns was given the opportunity to cite tomorrow authority for his contention in effect that the name of the writer of an article in a newspaper must be disclosed and before the trial.

The defendant company has entered a "backdoor" defence, first denying publication and secondly and alternately, pleading justification, that whatever is a statement of fact if the article is true in fact and substance, and whatever expression of opinion there may be is fair comment on a matter of public interest.

## JEWEL THIEF SENTENCED

Author of Robbery at Vancouver Hotel Admits His Guilt

Vancouver, June 27.—Fred Smith, a self-confessed thief with a long criminal record, and the author of the recent robbery at the Grand Trunk Pacific hotel in this city, was sentenced to three years in the penitentiary by Police Magistrate Williams this morning. His companion, Roy Perrine, alias Harry Stanley, convicted on a charge of having stolen property in his possession, escaped with a two years' term.

Smith is also wanted for house-breaking at Cloverdale, New Westminster and Central Park. Chief McIntosh of New Westminster was in court to claim his man, and expressed disappointment after the conviction that the hearing of the other charges cannot be proceeded with before making formal application to the Department of Justice at Ottawa.

Smith made a dramatic confession of his guilt after hearing a chain of evidence wound around his companion, for trying to dispose of the jewelry stolen from the room of Mrs. Armstrong, a guest of the Grand Trunk Pacific hotel. He declared that Perrine was innocent of any participation in the crime. Smith told how he had entered the room of Mrs. Armstrong during her absence. He secured a brooch, gold watch and gold chain, and \$12 in cash.

The prisoner said that he then took the boat for Victoria, paying Perrine's fare, but keeping his companion in ignorance of the crime. The next day he asked Perrine to dispose of the jewelry.

Detectives Palmer and McDonald of Victoria related how they had discovered Perrine having the jewelry tested in a pawnbroker's store. Perrine when taken into custody assured the officers that he had bought the property in Spokane with the exception of the brooch, which he had picked up on the streets of Victoria.

Perrine, under cross-examination today admitted that he had lied to the detectives, but maintained that he did not know the jewelry had been stolen. This was confirmed by the voluntary confession of Smith, who expressed his willingness to accept full responsibility for the crime.

Then Mrs. Armstrong was called to identify the jewelry as the property stolen from her room.

Questioned by the magistrate, Smith admitted that he had served a term in Walla Walla, Wash., for theft. He was discharged from prison about a year ago.

"And he is badly wanted in New Westminster and other places," interjected Inspector Mulhern.

"Yes, I would like to take him over and have him tried this afternoon," said Chief McIntosh.

"You will have to get an order from Ottawa," replied the court.

The police feel satisfied that in today's convictions they have put away two bad men.

## ROSSLAND ACTIVITY.

Rossland, June 27.—The mines are keeping their averages, and shipping between five and six thousand tons of ore per week, with a prospect of a considerable increase before the end of the year, now that improvements on the surface and in the workings have been about completed.

Since the announcement was made that the wages of those employed in the mines are to be advanced on July 1st, the number of men seeking employment has materially increased. A number have come in from adjoining camps for the purpose of securing work, but there is still a scarcity of skilled miners. Shovelers, however, are plentiful.

In the War Eagle there is a shoot of ore of considerable length, which it is thought extends into the Red Mountain claim. It is said there are about a hundred carloads broken down in this shoot, ready for shipment, which will yield \$1,000 to the carload. It is like money in the bank, to be called on at any time the management may desire to turn it into cash.

## MISS ROSA McAHAN OF BUTTE

How After Two Years She Found a Remedy for Dandruff

Miss Rosa McAlan, of 211 West Quartz street, Butte, Mont., says: "Herpetide has thoroughly cleaned my scalp of dandruff, with which it was entirely covered; and it has stopped my falling hair. I have tried many different preparations in the past two years, but none took effect except Newbro's Herpetide." Dandruff is a germ disease and Herpetide is an infallible destroyer of the germ. "Destroy the cause, you remove the effect." Kill the dandruff germ. Ask your druggist for Herpetide. It is a delightful dressing, always itching; makes the hair soft as silk. Sold by leading druggists. Send 10c in stamps for sample to The Herpetide Co., Detroit, Mich.

Two sizes, 50c and \$1. C. H. Bowes & Co., 98 Government street, Special Agents.

## Union Pacific Succeeds

Olympia, Wash., June 27. — The blocking of Union Pacific tunnel construction at Seattle was prevented when the supreme court refused a writ of review in the case of the state on relation of Mary M. Miller, of Seattle, against Superior Judge Griffin, of King county. The Harriman road is seeking to condemn a right-of-way for the tunnel under Mrs. M. Miller's lot in Seattle and she sought to block proceedings under an old law that no foreign railroad could exercise the right

eminent domain until it had a line in operation to the state line, which the Oregon & Washington road has not. The superior court says this law was but one of three laws relating to foreign corporations passed at one session, that all must be construed together and that a foreign railway has condemnation powers.

The King has appointed the Rev. Trevitt Reginald Hine-Haycock, minor canon Westminster abbey, to be one of the priests in ordinary to his majesty.

## SCHOOL HOLIDAYS HAVE COMMENCED

Various Public Schools of the City Closed Yesterday

## PROMOTION EXAMINATIONS HELD

Results for Most of the Classes Were Announced—Boys' Central Today.

The annual school holidays commenced yesterday and for the next two months the youngsters can spend their days as they fancy, and that of their parents dictate. The various schools the result of the promotion examinations were announced, so that the pupils will know in what class they will be when school reopens. Owing to the illness of the principal the promotions in the North Ward school were not announced yesterday, but will be at the opening of the term. The list for the Boys' Central was not completed yesterday but will be given out today. In most of the schools there were special closing exercises.

### SOUTH PARK

The assembly room of South Park school was beautifully decorated with roses and carnations furnished by the pupils for the closing exercises. Nearly every seat in the large room was occupied. A short musical and literary programme was rendered by the scholars, and the applause gave evidence of general enjoyment of every number. Principal Winsby presided.

## "MONTSERRAT" PUNCH

### The Hot Weather Thirst Quencher

Ever tried it? Well, you have missed a rare treat

There's something so satisfying—so refreshing—about "Montserrat" Punch, that it is pretty sure to be everybody's favorite summer drink.

#### Just Try This Recipe

3 Pints Water  
Cracked Ice.  
4 Tablespoonfuls Sugar  
½ Pint "Montserrat"

Serve in tall glasses with slices of fresh Lime or Orange.  
Much cheaper than Lemonade.

It's made in a minute—no trouble or muss—and is as delicious, as it is cooling and healthful

Cut out the recipe—order a bottle of "Montserrat" at your grocer's—and make up a bowl of this delightful punch tonight. You'll enjoy it

"Montserrat" mixes with everything but Coffee

# THE CHIEF CONSIDERATION

In investing money the most important point is safety. Fortunes can be made by speculating in wheat, real estate or stocks, and fortunes can be lost in the same way. The wise man looks for something sure, even if it looks smaller. The advantage a savings bank account has over all other investments are its absolute safety and its increasingly steady growth. We give every attention to large and small accounts.

| Inch; average amount 1.12 inches. Bright sunshine 258 hours, 12 minutes; mean daily proportion 0.55; (constant sunshine being 1.) |       |

# GUNNERS ARE FINED FOR NON-ATTENDANCE

Two Men of Fifth Regiment Punished for Absence from Parade

Gunnars Roscamp and Ede of the Fifth Regiment Canadian Artillery, were before Magistrate Hall in the police court yesterday, charged with being absent from parade without lawful excuse. The informations were laid by Major Hibben to whose company the men belong, while W. H. Langley conducted the prosecution. Gunner Roscamp pleaded not guilty and in his defence testified that his work as driver of a city sprinkling cart did not allow him time for military duty last Sunday, the day on which he was accused of dereliction. He admitted that he was aware that the parade was to be held, but said that he had seen Major Hibben, the day before, and told him that he could not attend. Magistrate Hall said that this defence did not furnish a lawful excuse, as the accused had not applied for leave of absence, which, he understood, was easy to obtain if proper application were made. Mr. Langley informed the court that the parade on the day in question was considered the most important of the year. Gunner Ede pleaded guilty to the charge, saying that his work prevented him from attending. Both were fined \$5.

# Will Enforce Sprinkling Hours.

Three special constables have been sworn in to see that the new sprinkling hours are adhered to. As it is believed that there is a good deal of waste from defective plumbing, and as a house to house canvass of the entire city by the one city plumbing inspector is out of the question, the Mayor has appointed an assistant inspector to assist him for a time.

# Donation From Comox

The committee of the British Columbia Anti-Tuberculosis society wish to acknowledge with thanks, the receipt of \$55, being the returns of a concert and entertainment held at Comox on June 29, under the auspices of Dr. Beadnell, and Mrs. Harry Smith, assisted by the young ladies of Comox.

# Woman Accused of Theft

Emma Wilson, who was arrested Thursday morning on a charge of stealing a watch from Thomas Dolan appeared in the police court yesterday and pleaded not guilty. The case will come up for hearing this morning. Dolan says that he was in Emma Wilson's house on Chatham street, Wednesday night, and that after he left he missed his timepiece. He returned for the purpose of recovering it, and was met at the door by a man who threatened to break his head if he entered the house. Dolan then reported to the police and the woman was taken into custody.

# Union Presbyterian Picnic.

One of the treats arranged for Monday, Dominion Day, is the union Presbyterian Sunday school picnic to Goldstream. Arrangements have been made with the E. & N. Railway Company for three trains each way, at hours which have been specially selected in order to suite the convenience of all classes of people. The first train will go out at 8 a. m., the second at 10 a. m. and the third at 1 p. m. Returning trains will leave Goldstream at 5, 7 and 8 p. m. While organized under Sunday school auspices the general public are cordially invited to attend and spend the holiday at this beautiful spot, which has no superior in all the excellent outing places to be found on Vancouver Island.

# Insurance in Victoria.

The Insurance Press, published at New York, says the total amount of insurance paid in Victoria in 1906 amounted to \$63,218.

## Mayor Morley Invited.

An invitation to the banquet in celebration of the incorporation of North Vancouver has been received by Mayor Morley from A. E. Kealy, mayor of the new municipality.

## A. R. Baker in Court

A. R. Baker, of Vancouver, was charged in the police court yesterday with infraction of the city trade by-law by selling automobiles and automobile supplies without a license. The case was adjourned for a week.

## Oak Bay Taxes

The taxpayers of the municipality of Oak Bay have already commenced turning in their rates to the treasurer, though the time for paying them does not expire till August 1. The rate is five mills on the dollar on land and two and a half mills on improvements.

## Will Widen Roads

Work will be commenced today by the municipality of Oak Bay in widening the principal roads thereabouts to the minimum width of 20 feet, as provided by the recent bylaw passed by the council. The roads affected are Shovel bay road, Mount Baker avenue and Poul bay road. These roads are now in some places not more than ten feet wide and for public safety the increase in width will be made.

# Centennial Sunday School.

The annual picnic of the Centennial Methodist Sunday school will be held at Sidney park on Monday. Trains will leave the V. & S. station at 8.15 a. m. and 2 p. m. and returning will leave Sidney at 6 p. m. Hot water will be supplied on the grounds. There is a good pavilion in case of wet weather.

## Regulations Approved.

The committee on regulations of the park board held a meeting yesterday morning to consider the regulations drawn up by the city solicitor. The new rules which are for the protection of the city property on the streets and parks were finally approved, and a report will be presented to a park board at a meeting which will be held early in the week.

# Picnic and Excursion.

The Spring Ridge Methodist Sunday school people are making elaborate arrangements for their annual excursion and picnic to take place at Bajan bay on Monday. Every convenience has been made for the comfort of patrons in the way of refreshments of all kinds. Hot water will be obtainable free to all. Trains leave Victoria & Sidney station at 8.15 a. m. and 3 p. m.

## Fishery Company Meeting.

A meeting of the West Coast Fishing Company will be held in Dr. Milne's office today. This is the company recently organized under British Columbia letter patent to carry on the oyster and other shell fish business on the Pacific coast. The company has leases from the British Columbia government of 56 acres of land in Esquimalt harbor for oyster beds. The company was organized by Col. Markham, late of St. John, N. B., and Capt. William Wellfleet, Mass.

# Tyee Copper Returns.

The Critic (London), in its issue of June 15th, has the following item: "Tyee Copper—Cable results for May—'Smelter' ran 25 days, treating 1,114 tons of 'Tyee' ore, and after deducting refinery charges equal to \$13,287; 4,712 tons of customs ore—5,327 tons, producing a total of 458 tons of matte." (Office note—The "gross value of contents" (\$7,558) given in circular issued 13th May last, referred to Tyee ore only, and did not include customs ore. This method of returns will now be adhered to.)

# B. C. FRUIT GROWERS

Regular Quarterly Meeting to be Held at Kaslo on Tuesday Next

The regular quarterly meeting of the British Columbia Fruit Growers' Association will be held in the city of Kaslo at 2 p. m. on Tuesday, July 2. Notice of motion to amend the constitution by having the membership composed of delegates from the local association; also to change the clause relating to qualification for voting will be brought up.

There will be a meeting of the Revelstoke Fruit Growers' association in that city this evening at 7.30 p. m. when J. Johnstone, president; H. Kipp, ex-president, and W. J. Brundith, sec. treas., will deliver addresses on spraying, planting, pruning and packing fruit, and other subjects of interest to fruit growers.

A meeting of the Board of Directors of the Fruit and Produce Exchange of B. C. Ltd., will be held on arrival of the morning train from the west.

## Heart Strength

Heart Strength, or Heart Weakness, means Nerve  
Strength, or Nerve Weakness—nothing more. Pos-  
sibly, not one weak heart in a hundred is in it-  
self, actually diseased. It is almost always a  
hidden tiny little nerve that really is all at fault.  
This obscure nerve—the Cardiac, or Heart Nerve—  
simply needs, and must have, more power, more  
stability, more controlling, more governing  
strength. Without that the heart must continue  
to fail, and the stomach and kidneys also have  
these same controlling nerves.  
This clearly explains why, as a medicine, Dr.  
Shoop's Restorative has in the past done so much  
for weak and ailing hearts. Dr. Shoop first sought  
the cause of all this faint, palpitating, aching  
heart distress. Dr. Shoop's Restorative—this  
unique prescription—has been directed to these  
weak and ailing nerve centers. It builds  
it strengthens; it offers real, genuine heart help.  
If you would have strong hearts, strong dig-  
estion, strength in these nerves—re-establish  
them as needed, with

Something that is appreciated by  
many Victorians and yet unknown to  
few is the direct representations of the  
toilet preparations of Dr. Cristion, of  
Paris, the celebrated Court Dermatol-  
ogist of Europe, as with all his pre-  
parations they contain no dyes or  
harmful ingredients nothing but that  
which will help nature in a natural  
way. Gray Hair Elixir stops the hair  
falling out, giving it new life, also re-  
turns gray hair to its natural color,  
contains no dye or oil. Ladies and  
gentlemen calling will receive full in-  
formation of all Dr. Cristion's French  
Toilet Articles, and a booklet of his  
valuable recipes free. Mail orders  
given special attention. Mrs. F. K.

## CITY POLICE ARREST

## WARSHIP DESERTERS

Unfaithful Sailors of H. M. S. Mon-  
mouth Tell a Hard Luck  
Story

Four of the sailors who deserted from  
H. M. S. Monmouth while it was  
anchored in Esquimalt harbor under  
orders to convey Prince Fushimi to  
Japan, were arrested by the city police  
yesterday and sent aboard the war  
sloop Shearwater.

The men, whose names are Charles  
W. Page, James O'Brien, Joseph  
Dickson and James O'Brien, admitted  
their identity and accepted the in-  
evitable with the remark that it was  
"badly hard luck."

Two of the men had a real hard  
luck story to tell the police. They had  
been waiting in hiding around the  
city till after the ship had sailed and  
their supply of money had become ex-  
hausted. On Wednesday they found  
employment in a mill yard at \$2.50 per  
day. They were unused to the work  
at which they were put, but were  
anxious to earn some money and toiled  
hard all day. To make matters worse  
they had gone to work without break-  
fast and had nothing to eat at noon  
hour. When the day was finished they  
applied to the boss for what  
money they had earned, and in order  
to convince him that they did not want  
the cash for the purpose of being able  
to leave the job, they confessed to him  
the story of their plight. It was a fatal  
confidence. The boss, who is some-  
thing of a patriot, said he had no use  
for deserters, and refused to pay them  
a cent, threatening at the same time  
to inform the police. The threat was  
apparently not good for the next  
morning they were arrested on the  
street.

The prisoners were attired in their  
navy trousers and odd and ill fitting  
civilian coats, the latter being supplied  
them by sympathetic friends among  
the merchant marine craft.

## ANNUAL ROSE SHOW WAS GREAT SUCCESS

Beautiful Display of Flowers in  
the Assembly Hall—Yes-  
terday

The second annual rose show of the  
Victoria Horticultural society was held  
yesterday afternoon and evening in  
Assembly hall, Fort street, and received  
much attention from the admirers  
of the glorious emblem of old Eng-  
land. The hall was most artistically  
decorated for the occasion and the  
beautiful display of roses was given  
a dainty setting. The flowers were  
exhibited in vases and pretty little  
baskets tastefully arranged on tables  
grouped in a circle about the centre  
of the hall. In addition was a giant  
the Australian tree fern and from  
above this were trailing vines of ivy  
to the various tables, giving the hall  
the appearance of a huge garden. The  
roses shown were of all manner of  
kinds and attracted a large attendance  
visitors during the day.

The class for professionals provoked  
little contest, the Oakland Nursery  
company making a clean sweep of the  
prize list. In the amateur classes there  
was some keen competition and the  
judges had their troubles making the  
awards. The prize for the best de-  
corative basket of roses went to Mrs.  
F. Morrall, who showed a striking lot  
of red and white roses. The second  
prize was won by Mrs. W. F. Burton  
with a salmon and pink array. Mrs.  
Shallcross won the first prize for the  
best vase or bowl of roses with a bowl  
of red and yellow blooms, while J.  
Sherburn took second with a mixed  
bowl.

The judges for the amateur classes  
were A. Ohlsen and H. J. S. Muskett.  
For the professional classes the judges  
were Mr. Muskett and W. Warburton.  
Mrs. (Canon) Beauland assisted in  
making the awards in the basket  
class.

The complete list of prize winners  
is appended:

Class A—Professional  
Class 1—Hybrid Perpetuals, nine  
varieties, one bloom each, named,  
shown singly, \$1; Oakland Nursery  
company.

Class 2—Hybrid Teas, six varieties,  
one bloom each, named, shown singly,  
\$2.50; Oakland Nursery company.

Class 3—Teas, six varieties, one  
bloom each, named, shown singly,  
\$2.50; Oakland Nursery company.

Class 4—Hybrid Perpetual, red, three  
blooms, one variety, named, \$1; Oak-  
land Nursery company.

Class 5—Hybrid Perpetual, white,  
three blooms, one variety, named, \$1;  
Oakland Nursery company.

Class 6—Hybrid Perpetual, pink,  
three blooms, one variety, named, \$1;  
Oakland Nursery company.

Class 7—Hybrid Perpetual, dark,  
three blooms, one variety, named, \$1;  
Oakland Nursery company.

Class 8—Hybrid Tea, red, three  
blooms, one variety, named, \$1; Oak-  
land Nursery company.

Class 9—Hybrid Tea, dark pink,  
three blooms, one variety, named, \$1;  
Oakland Nursery company.

Class 10—Hybrid Tea, salmon, three  
blooms, one variety, named, \$1; Oak-  
land Nursery company.

Class 11—Hybrid Tea, white, three

## R. P. RITHEL ON "ALL RED" PROJECT

Pioneer Railway Promoter En-  
dorses Agitation For Connec-  
tion Via Seymour Narrows

NOW IS THE TIME TO HIT

Thinks Project for Bridge a Little Pre-  
mature But Time Has Arrived  
for a Ferry Service

"You may quote me as saying that  
I heartily endorse and approve of the  
agitation set afoot by the Colonist  
that the people of Victoria and Van-  
couver Island should press without  
delay that rail connection via Seymour  
Narrows should be made an integral  
part of the Imperial fast service pro-  
ject, in so far as it affects British Col-  
umbia."

Thus spoke R. P. Ritthel to a Colon-  
ist representative yesterday, and he  
leaned back in his chair in his office  
on Wharf street, and gave just the  
suggestion of a sigh, when he said,  
further:

"Victoria would just be advanced  
ten years had the people been wise  
enough to endorse the British Pacific  
project. This 'new scheme,' as it is  
called, is my old, pet plan over again.  
It had to come. Fate has decided that  
Vancouver Island shall be the battle-  
ground where shall be fought out the  
struggles of the transportation mag-  
nates of the world to control the traffic  
to the Orient."

Of R. P. Ritthel, who holds these  
sentiments at this time, a time when  
the whole world is pulsating with the  
significance of the announcement that  
the Imperial and colonial governments  
have agreed upon details for the great-  
est scheme in transportation ever  
known, it may be said that no man in  
western Canada is more competent to  
give utterance to an opinion worth  
listening to. Some twenty years ago  
the late Hon. Robert Dunsuir first  
advanced the plan of building a rail-  
way from Victoria via Seymour Nar-  
rows and Bute Inlet to connect with  
the great transcontinental systems of  
America, so that traffic would flow  
through this port, by the line of least  
resistance, to the markets of the  
Orient.

Some few years later Mr. Ritthel  
became interested in the project which  
had so impressed Mr. Dunsuir. He  
acted with promptitude and vigor,  
devoting much time, money and energy  
to the gathering of data demonstrating  
the feasibility of the project: a pro-  
motional company was organized, pre-  
liminary surveys were run, capital was  
interested, and the government was  
asked for an appropriation adequate  
to finance the scheme. The govern-  
ment of Hon. J. H. Turner was unable  
to see eyes to eye with Mr. Ritthel in  
the matter, and the project failed.

And yesterday, after the lapse of  
years, Mr. Ritthel leaned back in his  
chair ruminating on the thought, how  
true it is that "all things come to  
those who wait."

With his large interests in Cali-  
fornia Mr. Ritthel has been compelled  
to spend a considerable portion of his  
time in that state, and he has, there-  
fore, not kept himself in touch with  
developments here to the extent he  
would have wished. When shown the  
report of the royal commission on  
transportation, which sat in 1903, he  
was much impressed with having his  
attention directed anew to this clause:

"Your commission would, in view of  
the facts adduced, recommend: That  
a further and exhaustive exploration  
and survey be made in order to find  
the best route from the plains of Al-  
berta to an ocean port on the west  
side of Vancouver Island. That in  
the building of a bridge at  
Seymour Narrows or elsewhere, con-  
necting the mainland of British Col-  
umbia with the Island of Vancouver,  
such bridge and the approaches there-  
to, and the land on both sides of the  
water running back from same, such  
distance as may be deemed reasonably  
necessary to allow of free access there-  
to, be owned and controlled by the  
government of Canada, with the view  
of according equal rights on and over  
such bridge and its approaches, to all  
railways desiring to use it."

"That is to the point," said Mr.  
Ritthel. "I am surprised that more  
pressure has not been brought to bear  
to see that this recommendation was  
carried out. However, I am personally  
of the opinion that it is premature to  
press for a bridge at this time. The  
system of handling traffic by car ferries  
has been developed with such suc-  
cessful results that I believe such  
arrangement would prove the most  
advantageous at present. A car ferry  
service could give us practically an  
all-rail connection, in the sense that  
little time would be lost in transfer-  
ring freight and passengers from land  
to land."

"However, there is no doubt what-  
ever, that the handwriting on the wall  
declares that this is the psychological  
moment for pressing with all our might  
that the Bute Inlet-Seymour Narrows  
route be included in the grand scheme  
for an All-Red coast service on two  
oceans, just launched at the Imperial  
conference."

"The early utilization of Seymour  
Narrows by the great railway com-  
panies is a foregone conclusion. They  
must do it. It was inevitable from  
the moment that the first spike was  
driven on the line of the C. P. R. in  
British Columbia, and, personally, I  
confidently anticipate that in a very  
brief period we shall see at least two  
great transcontinental railways ter-  
minating on Vancouver Island."

"As to the future of Victoria," queried  
the interviewer.

"You know my views on that point,"  
replied Mr. Ritthel. "Victoria is at  
last coming into her own. If it had  
been my good fortune, I think I could  
have assisted, by the development of  
my railway plans, in expediting the  
great future which is before it, but I  
have always had the greatest faith in  
my first love, and I see the city now  
entering upon a period of progress  
and prosperity which will not be  
eclipsed by any other in the British  
Pacific coast."

## VICTORIAN APPOINTED TO CHAIR IN MCGILL

Dr. J. L. Todd Is Made Professor  
of Parasitology in Montreal  
University

A Victorian who has won fame as a  
scientist, Dr. J. L. Todd, son of Mrs.  
J. H. Todd, of this city, has been ap-  
pointed professor of parasitology at  
McGill university, Montreal. Dr.  
Todd was born in Victoria in 1876, and  
educated at Upper Canada college,  
Toronto. Later he attended McGill,  
receiving the degree of B. A. there in  
1898 and M. D. in 1900. After work-  
ing for some time at the big Royal  
Victoria hospital in Montreal he went  
in 1901 to Liverpool and associated  
himself with Dr. Todd returned, hav-  
ing discovered that the sleeping sick-  
ness was due to infection with a trypano-  
soma—a blood parasite—carried by  
flies infected by biting cattle and other  
animals of the country.

In 1903 Dr. J. L. Todd and Dr. Dut-  
ton were sent to the Congo to study  
tick fever. Both were seized with  
recurrent fever and Dr. Dutton suc-  
cumbed. After arduous and dangerous  
investigations Dr. Todd returned, hav-  
ing discovered that tick fever was due  
to a blood parasite, a spirochaete, car-  
ried by tick flies. Since returning to  
Liverpool from the Congo in 1905, Dr.  
Todd has been busy collecting his data  
and publishing it. He holds the posi-  
tion of Director of the Runoon Re-  
search Laboratories of the Liverpool  
School of Tropical Medicine.

Dr. Todd, who is one of the best, if  
not the best, known graduate of Mc-  
Gill, has won a wide reputation be-  
cause of his researches in the field  
of tropical medicine. He was decora-  
ted by King Leopold in 1905 in re-  
cognition for his work with regard to  
the prevention of tick fever in the  
Congo.

# The Merchants' Bank of Canada

The forty-third annual meeting of the Shareholders of the Merchants' Bank of Canada was held in the Board Room of that institution yesterday, at noon when there were present:—Sir H. Montagu Allan, Messrs. Jonathan Hodgson, Thomas Long, C. R. Hosmer, C. F. Smith, Hugh A. Allan, Alex. Barnett (Renfrew), John Patterson, Michael Burke, George Hague, E. F. Hebdlen, M. S. Foley, C. R. Black, John Beattie, George Smith and M. T. Burke.

The proceedings were opened by Sir H. Montagu Allan, president, taking the chair, and requesting Mr. C. N. Read, secretary of the Bank, to act as secretary of the meeting.

## The Annual Report

The President then submitted the following report of the Directors:—

The Directors beg to present to the Shareholders the annual statement of the affairs of the Bank as at 31st May last.

The net profits are larger than last year, due to favorable trade conditions continuing to prevail, which have had a tendency to further stimulate business activity, bringing about more or less money pressure, with the usual corollary—somewhat higher money rates. Your Directors have this year been enabled to bring the Reserve Fund of the Bank up to the round sum of \$4,000,000, in addition to writing \$100,000 off Bank Premises Account as well as contributing \$22,000 to the Officers' Pension Fund.

It will be noted that the Paid-up Capital and Reserve Fund of the Bank have now reached the important figure of \$10,000,000.

The various branches of the Bank have been duly inspected during the past twelve months.

It is with sincere regret that we have to record the death a few days since of our esteemed colleague, Mr. James P. Davies, whose counsel and advice at the Board were, during the lengthy period of twenty-one years, as highly valued as he himself was personally esteemed by his co-directors. Mr. Davies has been associated with the Board of the Merchants' Bank of Canada ever since June, 1886, and in his death we lose a valued adviser and friend.

All of which is respectfully submitted.

H. MONTAGU ALLAN,  
President

The statement of the result of the business of the Bank for the year shows: The Net Profits of the year, after payment of charges, rebate on discounts, interest on deposits, and making full provision for bad and doubtful debts, have amounted to—

The balance brought forward from last year ending May 31, 1906, was—

Making a total of—

This has been disposed of as follows:

Dividend No. 76, at the rate of 8 per cent. per annum—

Dividend No. 77, at the rate of 8 per cent. per annum—

Dividend No. 78, at the rate of 8 per cent. per annum—

Dividend No. 79, at the rate of 8 per cent. per annum—

Added to Reserve Fund—

Written off Bank Premises Account—

Contribution to Officers' Pension Fund—

Leaving a balance to be carried forward to next year of—

\$1,036,256.25

STATEMENT OF LIABILITIES AND ASSETS AT 31ST OF MAY, 1907.

LIABILITIES.

Less Reserve Reserve—

Loans and Discounts overdue (loss fully provided for)—

Deposits with Dominion Government for security of Note—

Mortgages and other Securities, the property of the Bank—

Real Estate—

Bank Premises and Furniture—

Other Assets—

The President congratulated the Shareholders and Management of the Bank on the very satisfactory showing made during the year. "I think," said he, "it is the best statement the Bank has ever shown." He then moved, seconded by Mr. Jonathan Hodgson:—

"That the report of the Directors as submitted be, and the same is, hereby adopted and ordered to be printed for distribution among the Shareholders."

He intimated that, before putting the motion, he would be pleased to answer any questions that any of those present might desire to ask.

Mr. C. R. Black enquired respecting bank premises and furniture, and the President suitably replied.

The motion for the adoption of the report was then carried unanimously.

The General Manager, Mr. E. F. Hebdlen, said he was very glad that so satisfactory a report could be presented, and went on to remark that conditions had been unusual during the past year, favoring average higher rates, not only in Canada, but in the country to the south. These might not prevail another year, and he asked the Shareholders not necessarily to expect a repetition of the present, but to be prepared, if necessary, to accept something a little less favorable.

The President.—There is a resolution to come before the meeting, asking the Shareholders to agree to changing the date of the annual meeting from June to December. Nearly all the banks nowadays are ending the year on 30th November, or 31st December, and are holding their meetings in December, or January, which is a good deal more convenient, because many people want to get out of town in June, and particularly so if they are going across the Atlantic, as this month is the best time. If the proposed change in the by-law is approved the directors elected at this meeting will only hold office until the annual general meeting in December next, and after that the annual meetings will be held on the third Wednesday in December, instead of the third Wednesday in June, as at present.

It was then moved by Mr. C. R. Hosmer, seconded by Mr. Hugh A. Allan:—

"That it be resolved that By-law No. 1 be, and the same is, hereby amended by striking out the word 'June' in said by-law and substituting therefor the word 'December.'"

The resolution was unanimously concurred in.

Messrs. C. R. Black and John Patterson having been appointed scrutineers a ballot was taken.

Mr. Thomas Long spoke of the pleasure they all felt at seeing their esteemed friend, Mr. George Hague, the late general manager of the Bank, present at the meeting, and seeing him hale and hearty.

Mr. Hague expressed his thanks, and complimented the directors and management on the excellent standing attained by the Bank.

The President remarked that much of the success of a bank was due to its officers, the men who had the executive part of the work in hand. The Directors might advise them, but they had to carry out the work.

A vote of thanks was tendered the President for his conduct of the business of the meeting.

The scrutineers then reported that the following gentlemen had been elected as directors:—

Sir H. Montagu Allan.

Mr. Jonathan Hodgson.

Mr. Thomas Long.

Mr. C. R. Hosmer.

Mr. C. F. Smith.

Mr. Hugh A. Allan.

Mr. M. S. Hayes.

Mr. Alex. Barnett.

Mr. Bryce J. Allan.

The new Board of Directors met immediately afterwards, and Sir H. Montagu Allan was re-elected president, and Mr. Jonathan Hodgson, vice-president.

ADDRESS NEAREST OFFICE

## SCHOOL HOLIDAYS HAVE COMMENCED

(Continued from Page 3)

**Rolls of Honor, Division III.**  
Proficiency—Robert Renouf.  
Regularity and Punctuality—Della Beamish.  
Department—Earnest Webber.

### Promotions

The following promotions are in order of merit:

Robert Renouf, Rose Drake, Bonnie Davis, Howard Knott, Paul King, James Grey, Bella De Large and May McCorkale (equal), George Elliott, Edward Smith, Chrissie Drysdale, Nellie Cook and Carvel George (equal), Willie Murray, Alex. Stewart, Annie Hansen and Della Beamish (equal), Lillie Lucas, Cecil Holman, Myrtle James, Clifford McKittrick, Wallace Craig and Edna McGregor (equal), Victor Simpson, Fred Liddell, Stanley Levy.

**Rolls of Honor, Division II.**  
Proficiency—Helen Josephine Sinclair.  
Department—David Thomas Staples.  
Regularity and Punctuality—Percy William Plimley.

### Promoted Reader I. to II.

Helen Josephine Sinclair, Nina Mary Rigby, Raymond Victor Parfitt, Lulu Gertrude Bolden, Gladys Blanche Campbell, David Thomas Staples, Percy William Plimley, Dorothy Elizabeth Stimpson, Cyril Knight Sprinkling, Victor Henry Marsh, Eva Mary Jeanne, William McCormick.

**Roll of Honor, "B" Division I.**  
Proficiency—Maud Evelyn Amorsen.  
Department—Mabel Rita Malcom.  
Regularity and Punctuality—James Campbell Petricrew, Herbert Wilfred Brown.

### Promoted Reader II. to III.

Maud Evelyn Amorsen, Grace Mawatt, Adam, Herbert Wilfred Brown, George James Jones, Mabel Rita Malcom, Hazel Alma Snider, Percy Edmond Wills, Robert Francis Daziel, Dorothy Muriel Pusey, Regina Victoria Wall, Marjorie Ellen Pusey, Dorothy Elizabeth Gray, George Arthur Savory, James Campbell Petricrew, Katie Pauline Amorsen, Jaquitta Senora Moar.

**Roll of Honor, "A" Division I.**  
Proficiency—Harry Cross.  
Regularity and Punctuality—John James Brown.

### Promoted Junior to Senior III.

Harry Cross, Charles Frederick Drysdale, Ivy Gladys Sprinkling, Melodie John Smith, Albert George Wagg, Dorothy Wilfred Sherwood, Betsy Andrina Moar, John James Brown. After speeches from Mr. Millar and Miss Russell, the concert was brought to a close by the singing of "God Save the King."

## VICTORIA WEST

At the Victoria West school the midsummer closing exercises proved most interesting. A large number of parents and friends of the pupils were present, and the teachers of the various divisions were congratulated on the excellent showing made. Following is the programme which was observed:

Chorus—"The Sea is England's Glory." Recitation—"Little Duster Girls"—By six girls from Miss Saunders' class.

Recitation—"Crowning the Flower Queen"—By eight girls from Miss Simpson's class.

Chorus—"Blue Bells of Scotland." Presentation of rolls of honor.

Dialogue—"Closing Day," by eight pupils from Miss Simpson's class.

Chorus—"The Minstrel Boy."

Solo—"Grandpa's Dancing Lesson"—Clarabel Crowther.

Presentation of intermediate certificates.

Solo—"Lorelei"—Francis Davey.

Drill, by twelve girls from Miss Holmes' class.

Presentation of medals to boys who won races on May 23.

Solo—"Guardian Angels"—Leroy Wachter.

Chorus—"Men of Harlech."

Speeches.

National Anthem.

### Examination Results.

The examination results in the various classes were as follows:

**Rolls of Honor—Division I.**  
Proficiency, Catherine McGraw; department, Frances Davey; punctuality and regularity, Gertrude Gordon, Violet Evans.

**Rolls of Honor—Division II.**  
Proficiency, Albert Gerow; department, Bessie Fawcett; punctuality, etc., Verna Chuck, Jack Shakespeare, Earle Marling.

**Rolls of Honor—Division III.**  
Proficiency, Amy Tait; department, Gordon Gerow; punctuality, Ivy Evans, Stanley Semple, Hester Brenen, Chris Carey.

**Rolls of Honor—Division V.**  
Proficiency, Sutherland McKay; department, Alene Grimison; punctuality and regularity, Helen Florence Carey, Elizabeth McDonald.

**Rolls of Honor—Division V.**  
Proficiency, Delbert Gosnell; department, Erin Collins; punctuality, Margaret McDonald.

**Promoted, Division II to I.**  
Albert Gerow, Florence Smith, George McLain, Elsie Redding, Earnest Cherry, Charles Hardie, Viola Nicholson.

**Promoted, Division III to II.**  
Amy Tait, Agnes Wade, Victoria Walker, Sherring Somerville, Frederick Bland, Hester Brenen, Ivy Evans, Arthur Mable, Stanley Semple, Clarence Turna.

## Promoted, Division IV to III

Sutherland McKay, Louisa Lee, Lucy Brown, George Allen, Frank Carroll, Winifred Ross, Juanita Crowther, Elizabeth McDonald, Gerald Berry, Lena Grimison.

**Promoted, Division V to IV.**  
Dellert Gosnell, George Roberts, Erin Collins, Doris Oldershaw, Percy Clark, Elizabeth Gardner, Aubrey Roberts, Evelyn Turnbull, Gladys Smith, William Provis, Eleanor Lowry, Margaret McDonald.

**HIGH SCHOOL**  
The following are the promotions in the preparatory classes:

**Promoted to Junior Grade.**  
Class I.—George Willisford, Edith Austen, Thomas Norris, Charles Schilling, Beth Beattie, Irene Aird, Maude Knappett, James Dickson, Mary Robertson, Frank Palmer, Gwendolyn Heylings, Mona McDonald, Nellie Jones.

**Class II.—**Stuart Huggert, Shirley Ellis, Elmer Finland, Florence Percival, James Gray, Evelyn Le Clercq, Ella Vye, Robert Walker, Elsie Collier, Archie Wills, Hilda Beaton, Jennie Kelly, Edith Maltravers, Arthur Boggis.

**Class III.—**Edna McIntyre, Harold Campbell, Mary Croft, Edna Blake, William Palmer, Ruth May, Dorothy Fox, Bernice Hinds, Stephen Cheeseman, Herbert Boggis, Helen Eaton, Aubrey McDonald, Ormond McDonald.

**Passed on Year's Work.**  
Harry Robinson, Matthew Scott, Albert Rebill.

**Promoted to Commercial A.**  
Florence Patton, Walter Colvin, Norma Hall, Winifred Lee, Katie Jackson.

The following may gain standing by passing supplemental examinations in August:

Byron Johnson supplemental in English literature, Ernest Casey, supplemental in English literature, grammar and composition, Leslie Ellis supplemental in English literature.

**NORTH WARD**  
The closing exercises at North Ward school were of a quiet and unostentatious character owing to the illness of Principal Ellis. The teachers dismissed their classes separately without any exercises in the morning, and the scholars joined in a big picnic at the gorge in the afternoon. J. W. King looking after the arrangements for the little ones. Despite the threatening weather the scholars enjoyed themselves returning to the city about 7 o'clock. The promotion lists for this school will not be announced till the commencement of the fall term.

**THE ILL-TEMPERED DYSPEPTIC**  
Became So by Neglecting to Keep the Liver Right, the Digestion Good, and Bowels Healthy

You may shudder to think of yourself as a dyspeptic—as one who, through stomach troubles, has come to look on the dark side of things, and to be ill-tempered and grouchy—but if you neglect treatment for repeated attacks of indigestion you will most assuredly become a chronic dyspeptic.

The great mistake is to put the blame on the stomach, and strive in vain for lasting benefit from tablets and so-called digestives. The real cause of trouble in nine cases out of ten is with the liver.

Thousands of persons are being cured of complicated cases of indigestion by Dr. Chase's Kidney-Liver Pills, because of their direct action on the liver, thus ensuring a good flow of bile—good digestion and healthful action of the bowels.

This treatment is thorough, far-reaching and of lasting benefit, and cures the most severe cases of chronic and intestinal indigestion, as well as biliousness and constipation; 25 cents a box, at all dealers, or Edmansson, Bates & Co., Toronto.

**Receiver Appointed.**  
Chicago, June 28.—A receiver has been appointed for the Marquette Mutual Life Insurance Co. of this city, with outstanding insurance of more than one million dollars.

## AMIRAL JAUREGUIBERRY IS BRINGING JAPANESE

French Steamer Has a Noted Globe-Trotter as Passenger From the Far East

The French steamer Amiral Jaureguiberry of the Chargeurs Reunis, did not leave San Francisco for the north bringing 243 Japanese for this port and Vancouver until yesterday, having been delayed discharging freight at San Francisco. Sulphur and general merchandise was brought from the Orient. The Amiral Jaureguiberry is making a trip around the world. Leaving Havre on January 20, she has touched successively at the ports of Antwerp, Dunkirk, Port Said, Singapore, Hongkong, Shanghai, Moji, Kobe, Hakodate, Tientsin, Yokohama, Honolulu and San Francisco. After discharging the Japanese for British Columbia and coasting for the French steamer will proceed home from the Sound via the South American continent.

A notable passenger brought from the far east on board the Amiral Jaureguiberry was Monsieur Henrich Mosse, son of a family of social position and wealth in Paris. He is a member of the Racing Club of France, which in conjunction with a London club, started eight men to walk entirely around the world, using ship only when reached on the other way. The conditions imposed were that each man should start without funds, and to derive the money solely by lecturing on the tour. Of the original eight, two were murdered in Africa, two in Australia and one died in Constantinople from the hardships encountered. Two others gave up the trip and returned to their clubs, leaving Mosse the only survivor. The four years' limit expires June 14th next year, and as Mosse has to walk only from here to New York city, thence ship to Havre and walk to Paris, he feels that his trip is really over. A reward of 50,000 francs awaits him from each club in the event that he is successful, besides that he will be allowed to name a charitable institution to which each club will donate the same amount. Mosse has learned several languages on a world tour, and has a number of valuable souvenirs. Among them is an autograph letter from Menelik, the King of Abyssinia. In Odessa he was imprisoned forty-five days on suspicion of being a Japanese spy, and shamefully maltreated. On his back are scars which he will always carry.

## FAST BASEBALL AT OAK BAY PARK TODAY

### Bill Blackbourne Will Do the Twirling for Victoria Team Against Bremerton

The Victoria Superior baseball team will make its bow to the local public this afternoon at Oak Bay park when it will be pitted against the strong Bremerton team. Much interest has been aroused in the experience of placing a team composed largely of outsiders here and there will likely be a large attendance of critical rooters. According to the reports of past games in Seattle, the Superior team puts up a fast article of ball, and Manager Seth Armstrong is convinced that he will make good today. Bill Blackbourne will serve them up for the Victoria team and Weinhold will do the backstopping. Gordon and Duff will be the battery for the Bremerton team. The batting order of the teams will be as follows:

**Bremerton:** Robertson, right field; Nist, second base; Stutz, center field; Weinhold, catcher; Paddock, left field; Blackbourne, pitcher; Miller, short stop; McNamee, third base; McQuade, substitute.

**Victoria:** Teitel, second base; Olsen, right field; Duff, catcher; Black, short stop; Bradley, first base; Granger, center field; Doyle, third base; Gibson, left field; Gordon, pitcher.

### BASEBALL BREVITIES.

**Gossip of the Ball Players Gathered from Many Sources.**

The High school baseball team will visit Vancouver this morning to play a return match with the Vancouver High school boys. A number of changes have been made in the team since the last game with the Vancouver team, and the local boys are confident that success will attend their journey.

It is probable that in the next game played by the Victoria team which meets Bremerton today, several other local ball players will be given an opportunity of showing their worth. Robertson and Blackbourne are the only locals on the team today.

Whitemore, of the Renton team, has secured his release from Manager Westernman and will play with the Victoria Superiors, starting on the trip east of the mountains with them on Saturday night.

This is the order in which the clubs in the American association stand at present: Columbus, Toledo, Minneapolis, Milwaukee, Kansas City, Louisville, Indianapolis and St. Paul.

In the Eastern league the clubs now range in this order: Toronto, Buffalo, Baltimore, Jersey City, Rochester, Newark, Providence and Montreal. The race is a good one and there is not 20 points between first and last teams.

Higgenbotham continues at the head of all pitchers on the Coast, and so far as known there is not a man in either of the big leagues that has approached his work this year. He has won thirteen out of fourteen games, and in his leisure time plays the outfield. As a batter he is well up, and really likes to join the ball.

Jack Burnett, who was purchased by St. Louis from Tacoma, will take the place of Jake Beckley, who has been famous in major league baseball for over twenty years. Back in the eighties he was a wonder, both on the first sack and at the bat. His position in the box defied all rules and regulations governing scientific batting, but the regularity with which he punched out the ball where "no one was at" made the pitchers wish that he would conform to conventional methods. It

was inevitable that sooner or later he would come down to earth. The break to his high-grade work became apparent about two years ago, and it was thought then that another of the old guard was slated for retirement. However, he got a good start this spring and it looked as though he was good for another season.

It was predicted in Coast league circles that the Northwestern circuit would go to pieces not later than July 4. That time is rapidly approaching but there are no signs of the balloon ascension. Tacoma is proving a good ball town this year. Spokane is better than ever, Butte is picking up. Aberdeen has not complained, Vancouver is still game and Seattle is supporting a team that has had a great run of hard luck—Seattle Post-Intelligencer.

At Buffalo—Buffalo, 2; Jersey City, 3.  
At Rochester—Rochester, 4; Baltimore, 2.

## Art in Pianos

Appearance should not be THE essential of a piano. It should be AN essential.

The New Scale Williams are masterpieces of architectural beauty. They are ornaments to every home. They lend an elegance, a refinement, that nothing else can fill. They are made in all woods and colors to harmonize with the drawing-room, parlor, den and hall.

The veneers for the New Scale Williams Pianos are of every fine kind of wood—principally MAHOGANY from Spain, Brazil and the West Indies—WALNUT from France and the Circassus—QUARTERED OAK and SATINWOODS from the southlands.

There are four veneers on the case—two inside and two outside. They are cross banded—that is, the grain of each veneer runs in a different direction from the one next to it—thus adding strength.

The case of the

### The New Scale Williams Piano

is made of five thicknesses of hardwood. All woods used in the New Scale Williams—in case as well as action—are seasoned for three years after reaching Oshawa. Then they are perfectly dry—can never swell or shrink—and wear like iron.

Every New Scale Williams receives seven coats of varnish. Each is allowed to sink in the wood and dry, before the next is put on. This gives the brilliant, lasting finish that is so admired. The sympathetic touch—the magnificent tone—the sweetness and volume of the New Scale Williams are fully in keeping with its exquisite appearance.

These features and many others are illustrated and described in our booklets. May we send the three? FREE, of course. We will tell you about our Easy Payment Plan, too.

### OAK BAY CRICKETERS LEAVE FOR TACOMA

### Victoria Club Eleven Also Go to Vancouver Today to Play Burrard Club

The Victoria cricket club eleven which will play at Vancouver today and Monday will leave this morning by the Princess Victoria for Vancouver. The team will take on the Burrard C. C. this afternoon and on Dominion Day will stack up against the Vancouver Club. Fred Sterling, secretary of the Vancouver C. C., was in the city yesterday and gave out the line-up of his team for Monday as follows:

S. P. Judge, J. H. Spinkler, J. Rigby, G. Walton, A. Thomas, W. Irwin, J. O. Young, W. H. Crossfield, W. C. Hodges, E. W. Sterling and J. Elliot.

The following is from the Vancouver News-Advertiser of yesterday:

"Saturday will be the second meeting of the Burrard and Victoria clubs this season and although the Burrards are stronger than when they met Victoria on the first of the month in Victoria they still will not be full strength for another week yet, as some of their best players are still away. Unfortunately the Victoria eleven will be unable to come up for an all day match, but it is the hope of the Burrard club that they meet them in the international tournament to be held from the 13th August to August 24th, inclusive. In the final of the tournament, held last year in Victoria, these two clubs met, when Victoria won the championship of the Northwest Coast and incidentally the cup which Mr. Harrington, of Victoria, gave for that year's competition. This year Mr. Con Jones has given a very fine cup for the competition to be held only for one year by the winner of the season, and to be played for in this competition annually, wherever the committee designate. It is to be hoped that all cricket supporters will be out in large numbers, as England's grand old national game needs a flip and encouragement. The following eleven will represent the Burrard C. C.:

Messrs. J. Doughty, J. A. Gillinson, G. Gray, W. Hodges, A. J. Killick, Dr. Bowhill, C. Nelson, T. Hepburn, W. Snee, E. Davies and C. S. Wakeford. Umpires, Messrs. H. Hepburn and Dick.

The return match between the Oak Bay Cricket Club and the Tacoma C. C. will take place today at Tacoma. The Oak Bays are seeking as strong an eleven as they can secure, and are in hopes of registering another victory for the club. The matches with the Sound cities are considered the best and most enjoyable of the season, and the local players on their side are always glad to play for the hospitable and courteous manner they are treated.

The following players who will represent Oak Bay, left last night on the Princess Victoria: G. Harrington, J. Anderson, D. Menzies, P. W. Stewart, J. Murray, H. Stevens, A. C. Jones, D. B. Hagley, V. Shephard, J. B. Harper, C. W. Scott. The match will be an all day affair, commencing this morning. It will be played at the country club grounds outside of Tacoma.

The oarsmen who will represent the James Bay Athletic Association at the annual regatta of the North Pacific Amateur Association of Oarsmen on Lake Washington next Wednesday and Thursday will leave this evening for Seattle on the Princess Victoria. They will go direct to the course and finish up their training there. The men are in first class condition and unless they bring back a few of the trophies they will be sorely disappointed.

The party will consist of the following:

Senior four—K. T. Hughes, stroke; W. W. Laing, P. Baylis, W. H. Jesse bow.

Senior double—W. W. Laing, stroke; W. H. Jesse, bow.

Junior four—R. Hughes, stroke; C. H. Thompson, C. Jenkinson, V. Gray bow.

Junior double—C. H. Thompson, stroke; J. C. Hendon, bow.

Junior single—W. N. Kennedy.

They will be accompanied by a trainer and will take along their boats. A big delegation of club members will go over on Tuesday evening. Accommodation at a special rate for the party has been secured at the Hotel Standard on Fourth avenue, and it is likely that a large number of local rowing enthusiasts will take in the trip.

The Seattle Motor Boat club have extended the courtesy of its club to the regatta officials and will furnish two motor boats for the purpose of following the races.

Nothing daunted by the fact that there will be races in every class on the programme of the N. P. A. A. C. regatta on Lake Washington, on July 3 and 4, the committee of the Seattle Rowing and Canoe club, having the arrangements in hand, have decided upon enough extra events to make an entirely complete regatta.

There will be skiff and barge races for both ladies and gentlemen, single, double and mixed canoe and other events.

### LOCAL OARSMEN WILL LEAVE THIS EVENING

### James Bay Association Representatives Off for Regatta at Lake Washington

The oarsmen who will represent the James Bay Athletic Association at the annual regatta of the North Pacific Amateur Association of Oarsmen on Lake Washington next Wednesday and Thursday will leave this evening for Seattle on the Princess Victoria. **Portland Crows for Seattle**

Portland, June 28.—Portland will have a full complement of crews at the Seattle regatta next week. The senior four is, Loomis, stroke, McMicken, Dillough and Art Allen, bow. Junior four—Dent, stroke, Witterborg, Sterling and Harley bow. Goss and Ladders in senior doubles. Allen and Harley, junior doubles. Goss will enter senior doubles and Quickchild will enter the junior singles if fit. The crew will start for Seattle Saturday night.

**Alexandra Arrives**

Seattle, June 28.—The yacht Alexandra, defender of the Alexandra cup, reached here tonight from Vancouver after a long passage, being delayed by strong winds, she was brought in tow by the tug Linda.

**Vancouver Athletic Meets**

Vancouver, June 28.—The directors of the Vancouver Athletic Club decided to engage the Brockton Point grounds for their second field meet on July 20, and also for their big meet on Labor Day, September 2, when the annual championship of British Columbia will be decided. The features of the meet on July 20 will be a five-mile run, an international tug-of-war and probably a log-chopping contest.

**Kidney Disease for Twenty Years.**

Mrs. Caswell Reid, Orville, Muskoka, Ont., writes: "For twenty years I was troubled with kidney disease and have recently been completely cured by using three boxes of Dr. Chase's Kidney Pills. I had tried many remedies, but nothing seemed to do me much good until I used this splendid family medicine."

**Committee Will Meet**

The committee appointed at the public meeting recently to confer with the cemetery committee of the city council with regard to the rehabilitation of the Quadra street cemetery will meet the latter on Wednesday next at the city hall. It is hoped that a final settlement of the matter will be reached.

**Astronomical Society**

The Victoria branch of the Astronomical Society will hold a meeting at the office of Sidney A. Roberts, Chancery Chambers, Langley St., at 4 p. m., today. General business in connection with the organization of the branch will be discussed.

**No Session Monday**

The session of the city council next week will be held on Tuesday instead of Monday evening on account of the public holiday.

**Independence Day Excursion**

The Indianapolis will run an excursion to Port Angeles on July 4, leaving this city at 9 a. m., 1 p. m. and 5 p. m. The cost of the round trip will be fifty cents.

**Big Deal Went Through**

H. J. Knott, managing director of the National Finance Company is in the city and while here will arrange for the furnishings for the new offices at 88 Government Street. The company recently put through a \$32,000 deal whereby a Winnipeg company acquired a local property.

## That WEARY FEELING

is a sure sign of stomach trouble. Your blood is carrying poisons drawn from your undigested food; your system is clogged—stomach, liver and bowels. That is why you feel tired; even your sleep fails to refresh you. Mother Seigel's Syrup assists the stomach, liver and bowels. Begin to-day and take it after every meal. It will cure you.

## MEANS INDIGESTION

"I had suffered for years; could not sleep at night, and felt as tired when I got up as before I went to bed. I went to hospital, and also tried many remedies. At last I took Mother Seigel's Syrup and obtained miraculous results, and am now an entirely different man. Your medicine has cured me and I am grateful."

H. COUSINS, 91 Delisle St. Montreal

## ROYAL JUBILEE ANNUAL MEETING

### Supporters of Provincial Hospital Hear Reports and Elect Directors

### MANY IMPROVEMENTS ARE NEEDED

Retiring Board Point Out Necessity For Additions and Repairs to the Buildings

The seventeenth annual meeting of the Provincial Royal Jubilee hospital was held yesterday in the council chamber of the city hall. The attendance was but a small one, not more than twenty people being present. The reports of the directors, the treasurer, and the resident medical officer were received and adopted, and four subscribers were elected to succeed the four retiring members of the board of management. A notable departure was evidenced in the last connection when Mrs. Charles Rhodes was elected a member, the first lady to hold such a position in connection with the hospital.

The president of the board, A. F. Forman, occupied the chair. When he had called the meeting to order the minutes of the last meeting were read and approved. Mrs. Hasell took exception to the fact that no special notice had been sent out to subscribers and donors of over \$5 as it had been agreed upon at the last meeting should be done. The chairman ruled that the matter should come up later.

The directors' report was then read by the secretary, F. Elworthy. It was as follows:

The directors of the Provincial Royal Jubilee hospital have much pleasure in presenting their report upon the working of the institution during the seventeenth year of its existence.

**Repairs and Improvements.**

The principal work in the upkeep of the premises has been in painting public wards, rooms, kitchens and corridors. This work has just been completed and the present appearance of the hospital is about as good as it can be made in that respect. Arrangements have been made for immediately laying a hard-wood floor in the entrance hall. This is far short of what the requirements demand and attention must again be called to the roof and heating system. The directors have been more fortunate lately in the matter of funds, that is they have had more money at their disposal; but the demands upon their resources have also increased to a degree that has rendered their position more difficult than ever before. The Children's Ward has not been opened for the purpose intended in consequence of there being no accommodation for the extra nurses required. Not only is the present accommodation for nurses crowded but rooms that should be producing revenue are occupied by the staff; which is most unfortunate in view of the fact that numerous applicants for them have of necessity been refused. To meet this emergency a house, situated not far from the hospital, has been rented and will be used as nurses' quarters until proper arrangements can be made.

**Requirements.**

The most pressing needs of the hospital are: Nurses home, additional private rooms, substitution of fire proof roofing for the present shingles, entire change in the heating system, a laundry plant and new premises, a maternity home.

In consequence of the magnitude of these improvements and additions the cost has not been accurately ascertained, but a conservative estimate may be placed at \$50,000.

**Funds.**

The directors interviewed the corporation of Victoria and presented a strong case for an increased grant from that source with the result that an additional \$2,500 has been promised "provided that it is found when all the taxes have been paid for the current year that the sum of \$2,500 is available for that purpose." The payment of this increased grant will not cover the cost of treating the city free patients, but furnishes a recognition of the hospital's claim, which it is hoped that next year's grant will fully cover.

The directors also interviewed the provincial government and in presenting the accompanying memorial enlarged upon this hospital's claim for financial aid. It must be stated that the provincial government per capita grant is already generous and on the basis of that paid to other hospitals throughout the province, but the case of this institution is dissimilar. Although incorporated under a private act this hospital was named "Provincial" Royal Jubilee, including provision for the government to appoint three directors on the board of management. The proportion of free beds was originally unusually large and notwithstanding the addition of eleven private rooms about half of the total collective days' stay throughout the year now represents patients who are treated without charge. This accounts for the chronic lack of funds for improvements, and but for the generosity of the public none could have been undertaken. Mention must also be made that the free work of this hospital is not confined to the local indigent cases and that many are sent from other parts of British Columbia in consequence of the high reputation of the institution and known skill of the medical and surgical staff, the prefix of "Provincial" in the name of this hospital also giving the impression that serious cases should be sent past other government-aided hospitals. The directors are proud of some of these conditions and would be glad if circumstances would warrant a continuance.

**Auxiliaries.**

The Women's Auxiliary, Daughters of Pity and King's Daughters have continued their most valuable assistance and the directors wish to state that this formal acknowledgment with thanks does not adequately express their great appreciation and gratification.

## THE MEDICINAL VALUE OF FRESH FRUIT JUICES

### One of the Greatest Wonders of the Age.

### Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve biliousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion.

An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels, into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and

The following abstract from the treasurer's report was then read:

| ACCOUNTS CURRENT                                        |             |

## FOUR STEAMERS FOR CHARGEURS REUNIS

French Line Will Build Additional Vessels for Round the World Trade

## TEES BACK FROM ISLAND COAST

Otter Takes Cargo of Supplies to West Coast for the Whalers—Spokane Leaves for Alaska.

The French steamship company which is competing with the Blue Funnel line for the round-the-world freight trade from the United Kingdom and Europe to the Orient and the North Pacific coast is building four new 10,000 ton freighters for addition to its line, an increase similar to that which is being made by the Blue Funnel line. The Amiral Jaureguy of the Chargeurs Reunis of Marseilles, left San Francisco yesterday for Victoria and Vancouver and is expected to reach here about the beginning of next week. The four new steamers will be in commission before six months have elapsed. They will not be amirals, as the former steamers were christened. The new steamers will be the Ceylan, Malte, Ouessant, and Corse.

According to the description furnished by the company, the boats will be among the most modern freight and passenger steamships in the world. It will be the purpose to build up a passenger trade between Seattle, San Francisco and the ports of Central and South America.

Two of the new steamships are building in England and two in France. The English boats are building by Swan, Hunter & Wigham and Richardson & Co., of Wallsend, near Newcastle on Tyne. The two French ships are being built by La Societe, at St. Nazaire.

The two English built boats will be named Malte and Ceylan, respectively. The two French ones, Ouessant and Corse. They will be sister ships and their principal dimensions are: Length, 146 meters; breadth, 17 meters; depth, 11 meters 80 centimeters; maximum draught, 8 meters 35 centimeters.

The size of these four boats will be about the same as the steamship Cyclops of the Oceanic Steamship company, which comes often to Seattle. The Cyclops measures: Length, 482 feet, (147 meters); breadth 58 feet, 2 inches (17 meters); depth, 55 centimeters; depth of hold, 23 feet, 5 inches, (12 meters).

The new boats are built on the three-deck rule under the supervision of bureau verifiers, to get the highest class of this register. The cubic capacity of holds will be about 12,000 cubic meters (420,000 cubic feet). The holds and spar decks are fitted with all improvements and appliances for facilitating the rapid loading and discharging of cargoes. The ten hatches, of which four are of unusual size, are fitted with eighteen steam winches of great lifting power (twenty-one decks, one of forty tons, and four of ten tons and the others of six tons).

The machinery which is constructed by the builders, consists of two sets of triple-expansion engines, each of them working a four bladed propeller. The two engines will give 6,800 horse power for a mean speed of fourteen knots on trial trip, with 9,000 tons dead weight on board, but the company has decided to limit the power at sea, in service, to 5,000 horse power, driving the boat at the speed of twelve and one-half knots on the average during the round the world trip.

Special attention is being paid to the accommodations for first class passengers, all the rooms being very large airy and well ventilated. Accommodation is provided in staterooms inside the bridge, on houses on the bridge deck and on a promenade deck, situated over it. The first class quarters will be provided on three decks, in the centre of the ship, a system which is employed on the first German steamers. The first class cabins will be divided as follows: Sixteen staterooms, with two berths each; twenty-five cabins with a single berth (brass bedsteads), making altogether fifty-seven berths. This number could be, in case of need, increased to seventy-five by using the sofa berths placed in the staterooms.

There will be a large dining room in polished hardwood and a drawing room or social hall very nicely fitted, with pianoforte, library and writing tables. The boats will be lighted by electricity throughout and have powerful refrigerating machinery.

The steamship Malte was launched at Wallsend on May 30, and the trial trip will take place in August. The Ceylan will be launched toward the end of July.

## FROM WEST COAST

### Steamer Tees Returned Yesterday—Took Indians to River's Inlet

After carrying nearly 250 passengers on up and down trips and between ports the steamer Tees, Capt. Townsend, returned yesterday from the west coast of Vancouver Island. The Tees left here June 20 with every available berth occupied and overflow passengers sleeping on and under the dining room table. Calls were made at the usual ports and 75 Indians were picked up at Nootka and Kyuquot for the Good Hope cannery on River's Inlet, whither the steamer proceeded after calling at Cape Scott. Among the passengers were Senator Jahnson, of Janes, Nebraska, and party, who have been looking over some timber limits they propose to purchase at Kyuquot Sound and propose to build a large mill and commence as soon as possible to cut timber. Messrs. Blake, More and Hedley returned from a visit to mining properties at Sidney Inlet, and Mr. Mortimer from a visit to the marble deposits on Nootka Sound. There were also a large number of other passengers.

News was brought by the Tees of an earthquake shock at the whaling station at Sechart. The tremor was a slight one, but distinct.

The steam whaler St. Lawrence is to be taken to the Narrows Cut Creek whaling station at Kyuquot Sound two weeks hence, and the Orion will be operated from Sechart. There were three whales being treated at the Sechart factory and two more in the harbor while the Orion was still hunting.

The sealing schooner Markland, Capt. Heiter, came into Clayoquot on Wednesday from Victoria to ship Indian hunters. The Umbrina was already there. The schooner Thomas F. Bayard was at Kyuquot.

Sister Priscilla, from the Christie school at Clayoquot, arrived by the steamer and was taken to St. Joseph's hospital suffering severely from inflammatory rheumatism.

## BUCENTAUR ARRIVES.

### Canadian-New Zealand Steamer reached Port Yesterday from Newcastle.

Trade is growing rapidly between Canada and New Zealand. As an instance the steamer Bucentaur, Capt. Jenkins, which reached port yesterday morning from Newcastle, Wellington and Honolulu, came north a full ship and will return full to the hatches, leaving 400 tons of freight behind for the Moana. The Bucentaur brought 2500 tons of coal from the Newcastle mines for Honolulu, and has now on coke and general freight, including a shipment of ironwood piles and one of long baulks of ironwood. A shipment of canned meats was landed at the outer dock, and the vessel proceeded to Vancouver. She brought a party of passengers, Mr. and Mrs. A. W. Despard, the former being the decorator of the Canadian government sent to the Christchurch exhibition in New Zealand. Three hundred tons of returned New Zealand goods were brought from the Bucentaur.

Mr. Despard said he and his wife were ticketed to return by the Oceanic line to San Francisco, the government having secured round trip tickets for them by that route. Other members of the exhibition staff including Mr. Broadbent, mineralogist, who had charge of the mineral exhibit, Mr. Knowlton, pomologist, who had charge of the fruit exhibit, and J. H. Race and W. A. Burns, joint commissioners, the former who in his placid moments is editor of the Mitchell Recorder of Christchurch, occupied considerable more space, attracted more attention than any others of the exhibits. He says there is a good market in New Zealand for many articles that Canada can supply, and particularly is there a demand for Canadian fruit. Merchants seen in the leading New Zealand centres, Auckland, Wellington, Dunedin, Christchurch and elsewhere, being anxious to secure it. The Canadian fruit exhibit was much admired at Christchurch, and the whole exhibit was given the highest awards. The greater portion of the exhibit consisted of manufactured goods.

## FOR WEST COAST.

### Steamer Otter Leaves With Cargo of Barrels and Coal for Whalers.

The steamer Otter, Capt. Whiteley, left for Sechart whaling station on the west coast of Vancouver Island yesterday at noon with a full cargo of coal, barrels and other supplies for the Pacific Coast Whaling company. Capt. D. G. Macaulay went as a passenger to again assume command of the whaling steamer St. Lawrence, which is now hunting with the Orion from Sechart and is soon to be moved by the new steamer Kyuquot. Capt. Macaulay came from the whaling station with the intention of going sealing, and was despatched to Rodger's cove and vicinity to get a crew of Indian hunters for the sealing schooner Otter.

About the same time that the well known sealing captain reached Rodger's cove a Kilsomait Indian arrived with ten boxes of pilot bread and proceeded to hold an impromptu potlatch. The Kilsomait, it seems, had been on a previous voyage with Capt. Macaulay and proceeded to lay many charges against the sealing man, advising the Indians not to ship.

First, the captain never asked the Indians their opinion as to where seals were to be found.

Second, he carried sail in a breeze of wind and had a tum-tum (mind) of his own when the fear-stricken Indian asked that reefs be made.

Third, he usually stayed in Bering sea as long as there was any opportunity of taking seals.

The captain was tried and found guilty of these charges. There were speeches, and the whole matter was gone into at length. One old buck who had been in the sea before with the captain said he would like to sign on the Otter but he was fond of talking and might get into trouble if the captain did not like his talk. Anyhow, the Indians were rather polite than so sealing, and Capt. Macaulay, unlike the famous William Bailey, came back home. The Otter will not go to Bering sea, so Capt. Macaulay has returned to the St. Lawrence to hunt whales. When the Otter was loading coal at Ladysmith James Green, second officer, was struck by a cable as it tension was released when shipping from a pile. On arrival here Mr. Green was taken to St. Joseph's hospital with his leg badly injured.

## WIRELESS STATIONS

### Export Arrives From Ottawa to Establish Five Coast Depots

Work is to be commenced at once on a central wireless telegraph station for the coast of British Columbia. The station will be established at Cape Lazo, near Comox, for communication with northbound steamers; at Estevan Point, near Nanaimo, where a first class lighthouse will be constructed, and at Point Grey, near Vancouver. Masts 180 feet in height will be erected at each station. Within six weeks it is expected that the Victoria and Pacha stations will be ready for service.

Cecil Doutrine, superintendent of wireless telegraph stations for the Dominion government is in Victoria arranging for the establishment of the station. He says the Shoemaker system will be used, which has the advantage of being capable of intercepting with the other systems in use. It is expected to send a Herizian wave at least 250 miles from the stations.

At each station a residence will be constructed for the chief operator and family, and accommodation for two operators. At Pacha and Estevan Points the stations will be operated from the lighthouses. Two engineers will be stationed in British Columbia, one at Victoria, the other at Vancouver.

When Pacha Point station is ready for service wireless apparatus will be placed on the Empress steamers which will then be able to communicate with the stations at either side of the Strait of Juan de Fuca. The receiving office at day and night will be kept in use. It is expected to send a Herizian wave at least 250 miles from the stations.

The total number of patients treated this year as compared with last is as follows:

|              | 1907 | 1906 |
|--------------|------|------|
| In-patients  | 873  | 889  |
| Out-patients | 214  | 323  |

The total number of patients treated is less this year than last owing to the less number of out-patients who came up for dressings.

The total collective days stay this year shows an increase as compared with last year, the figures for 1907 are 23,736, and for 1906, 22,263, an increase of 1473 days. The daily average number of patients was 65.11 for 1907.

The cost of maintenance this year was \$28,992.57, last year it was \$26,772.30. Notwithstanding the increased days stay and the consequent increased cost of maintenance, the daily average cost per diem, per patient, was the same as last year, \$1.01.

The increased expenditure includes the cost of painting, public and private wards, kitchens, and corridors, new floors in some private wards, a food wagon, extensive repairs to the outdoor ambulance, new stairs to the kitchen and children's wards, as well as repairs incurred by the severity of the weather during the past winter.

The demand for accommodation in the private rooms has been so great during the past year that many patients have had to be refused admission. I would urge upon the ladies and gentlemen who so ably increased accommodation for this class of patients.

I would again mention as pressing needs the need of a convalescent ward, a nurses' home, a diet kitchen, an infirmary for chronic cases, and a new X Ray apparatus.

I would venture to suggest that the installation of gas for cooking purposes, as soon as arrangements can be made with the company (whose mains are now being laid in the neighborhood of the hospital) and the necessary connection made.

I enter again a special appeal for a maternity ward, as I am constantly receiving applications for such accommodation, both from residents and non-residents of the city.

The Women's auxiliary, the Daughters of the King and the King's Daughters are as ever, invaluable as auxiliaries in the work of the hospital. Regular services have been held on Sunday afternoons in the men's dining-room by the clergy of the city. The patients have enjoyed the weekly lectures given after the services, and arranged mainly by the kind efforts of Wellington Bowler and A. Longfield, whom I would specially thank, together with those ladies and gentlemen who so ably contributed to the success of these occasions. I cannot refrain from again expressing on the part of myself and the staff our extreme appreciation of the kind and generous contributions of the King's Daughters, who induced the various musical organizations to give concert at the hospital, and of other individual friends who are daily thanked and mentioned in detail in the annual report of the Women's Auxiliary society.

Services due to the visiting medical staff, who have continued their gratuitous services to the patients in the public wards, and to the members of the staff when ill. They have also given instruction in lectures to the nurses in training. I would put on record my cordial appreciation of the advice, co-operation, and assistance rendered me by my colleagues in the medical profession.

Owing to the increased days stay, and the number of special and serious cases, so continuously under treatment, I would earnestly beg of you, if this hospital is to maintain its high standard of efficiency as compared with other hospitals, to appoint a night superintendent and also a graduate nurse in charge of the night work.

Since there is such a large increase in the number of amputees, and the necessity is urgent, as the work of the hospital grows, of providing a certain number of time to the executive work of the hospital, I would remind you of your promise to provide me with an assistant who would relieve me of some of the more arduous and less pleasant duties of the hospital, both of which take up valuable time, and hinder me from attending to what I feel are more important duties.

I wish to convey my hearty thanks to Messrs. Lee & Fraser, notaries public, who have certified the government returns over and over again, and have the dispensing of medicines, both of which take up valuable time, and hinder me from attending to what I feel are more important duties.

I wish to convey my hearty thanks to Messrs. Lee & Fraser, notaries public, who have certified the government returns over and over again, and have the dispensing of medicines, both of which take up valuable time, and hinder me from attending to what I feel are more important duties.

The experience of the very prosperous year just closed, has enforced one lesson very important to all institutional work and service—that steady adherence to those fixed principles, which alone control duty and conduct, irrespective of individual, or of prejudice, is the only rule by which a thing can stand and be upheld satisfactory to the public conscience, and productive of that blameless and irreproachable record as an institution, which is the aim of your officers and staff to maintain.

I beg to enclose detailed lists of statistics for the year, and have the honor to remain, your obedient servant.

EDWARD HASELL, M.R.C.S., Eng.  
Resident Medical Officer.

Upon the motion of H. D. Helmecken, K. C., seconded by Alexander Wilson, the report was adopted. Mr. Helmecken congratulating the resident medical officer upon the excellent showing.

## CREW MUTINIED

### Revenue Cutter's Officers Put Down Mutiny on Steamer Ohio

The crew of the steamer Ohio, being repaired at Cape Nome to allow of her voyaging to Esquimalt, mutinied on Monday, and held possession of the vessel until five of the ring-leaders were taken into custody by the officers of the United States steamer Thetis. The mutiny was kept on board the Ohio. After the trouble had progressed to a point where the officers could not cope with the mutineers, Capt. Brown signalled for assistance and a number of men were sent from the Thetis, then lying in Nome roadstead near the Ohio.

## MARINE NOTES

Capt. Gaudin, agent of marine, has been advised that the bellboy placed at the bandstands has disappeared. Search will be made for it. The aid will be replaced as soon as possible.

The Pacific Mail steamer San Juan, which left San Francisco on Wednesday for South America, carried a large shipment of arms for the government of Salvador.

A Dunkirk despatch says the schooner Violette, with sixteen hands, has been lost with all on board off the coast of Iceland.

The steamer Ascot struck bottom when at a Seattle mill yesterday. No damage was done, and she is expected to leave today with cargo for North China.

The British ship Socotra has been chartered to load lumber at Chemainus for Australia.

The steamer Spokane left the outer dock yesterday afternoon with a full complement of excursionists, mostly from the eastern states, for Alaska.

The steamer Sonoma will sail this morning from the outer dock for San Francisco.

The steamer Umattila passed out yesterday from Seattle for Nome. She had 200 passengers and a full cargo.

## THE SLEEVES OF A 39R SHIRT

Any 39R Shirt looks better on you than any ordinary shirt. One reason is the careful tailoring of 39R Shirt Sleeves. There is room enough under the arms so the sleeve won't bind—yet there's no ugly bunch at the shoulder point. Shaped to standard patterns that suit every build of man. Made for ease, for fit, for service in every style and for men like you. You get bigger money's worth when you buy DEMAND THE BRAND 39R MAKERS BERLIN

## ROYAL JUBILEE ANNUAL MEETING

stitution was due, he was sure, to the good management of the staff. He referred to the fact of \$10,000 for the building fund. He trusted that the board would devote its attention first to placing the present building in as good a state of repair as possible before proceeding to erect extensions. He would suggest that the replacing of the shingled roofs with tiles should be immediately proceeded with. He thanked the directors on behalf of the citizens for their fine showing.

T. R. Smith, the first president of the hospital who was present seconded the adoption of the report. He referred to the fact that time had just flown, the hopes of the founders of the institution. It was a spontaneous effort and had always proved itself worthy of the support of the public. It had a more than local reputation as was shown he thought by the fact that it was constantly out of money.

Resident Medical Officer.

The report of Dr. Hassell, the resident medical officer was then read by that gentleman. It was as follows: The president and members of the board of directors.

Gentlemen: I have the honor to submit my report for the year ending May 31st, 1907.

The total number of patients treated this year as compared with last is as follows:

|              | 1907 | 1906 |
|--------------|------|------|
| In-patients  | 873  | 889  |
| Out-patients | 214  | 323  |

The total number of patients treated is less this year than last owing to the less number of out-patients who came up for dressings.

The total collective days stay this year shows an increase as compared with last year, the figures for 1907 are 23,736, and for 1906, 22,263, an increase of 1473 days. The daily average number of patients was 65.11 for 1907.

The cost of maintenance this year was \$28,992.57, last year it was \$26,772.30. Notwithstanding the increased days stay and the consequent increased cost of maintenance, the daily average cost per diem, per patient, was the same as last year, \$1.01.

The increased expenditure includes the cost of painting, public and private wards, kitchens, and corridors, new floors in some private wards, a food wagon, extensive repairs to the outdoor ambulance, new stairs to the kitchen and children's wards, as well as repairs incurred by the severity of the weather during the past winter.

—TO—  
**Port Angeles**  
ON THE  
**4th July**

The Ss. Indianapolis will make three trips during the day, leaving at 9 a.m., 1 p.m. and 5 p.m.

Fare for the Round Trip, 50c

Use telephone to Chilliwack.

### PREPARE REPORT FOR THE CITY COUNCIL

Streets Bridges and Sewers Committee Held Meeting Last Evening

The streets, bridges and sewers committee of the city council held a session last evening at which a number of matters of interest were considered.

The engineer reported that the first bridge across the Gorge would have to be strengthened. The bridge, which is near the Methodist church, has been pronounced unsafe, and strengthening work will have to be performed. The engineer has been asked to report upon the cost of installing a permanent stone culvert here.

The committee will recommend that an eight-inch drain be installed between Rockland and Richmond avenues, near Capt. Tatlow's residence. The drain is necessary to carry off water from the former thoroughfare. It will run through private property.

An application was received from Pither & Leiser asking permission to construct a cement sidewalk around their new building at the corner of Port and Wharf streets, beneath which they have an area. The committee recommends that they be allowed to construct one at their own expense under the supervision of the city engineer.

The engineer reported that the cost of grading and building sidewalks on Bank street would be \$2,350. The committee cannot see their way clear to proceeding with the work at the present juncture. A number of other applications for permanent sidewalks were received and referred to the engineer for report.

#### SLOOP-MEN LOST

A Seward, Alaska, despatch says: Charles A. Lambert and Fred Peterson have not been heard from since March 14, when they left Eagle Harbor, on Kodiak Island, in a small sloop to go to Kodiak. That night a terrible storm blew up, the worst of the winter, and the temperature dropped below zero. The wind was a "nor'wester" and it seems certain that it carried the little boat far out to sea. In that case the little craft was undoubtedly lost.

That night after the men left Eagle Harbor the sloop was seen anchored at Chemega Point. The next day it had disappeared and no sign of it has ever been reported at any place. There is no shelter at the point and it is supposed the boat was carried out by the storm.

It was only recently that the men were missed. Settlements are so far apart in that region that when a man leaves one he may not be heard of there for many months and nothing is thought of it. Casual inquiries concerning the men, who were well known around the inlet and Kodiak started investigation and it was then found that they had not been seen since they left Eagle Harbor in the little sloop. William Wharf, the coal man of Seldovia, brought the story to Seward yesterday. He was owner of the sloop, which he loaned to Lambert last fall.

Lambert has been living in that part of the coast for several years. His parents live in San Francisco and are said to be wealthy. Peterson was a newer arrival.

#### STANDARD OIL CASES

Pindlay, Ohio, June 28.—The jury in the case of Ohio against the Standard Oil Co., charged with violating the anti-trust laws, today reported a disagreement and was discharged.

Chicago, June 28.—The attorney for the Standard Oil Company today appealed to the United States court for the withdrawal of the subpoena against John D. Rockefeller. Judge Lanty refused to do so. Counsel said that Mr. Rockefeller did not possess the information desired by the court, that he was an old man with many business cares, and that there was no advantage in bringing him into court.

A good appearance in a man or woman is success in life, and very often through carelessness is neglected. A nature takes her tributes by placing wrinkles, frowns and crowfeet. These preparations are scientifically prepared and will do just what is claimed for them if given a fair and honest trial. A distinctive feature of Dr. Cristion's Ando Oil is, that it is used without staining the face, which enlarges the pores of the skin and in time will cause relaxation of the muscles.

#### LETTERS TO THE EDITOR

##### THE WOES OF A TRAVELER

Sir.—In case any English tourists are contemplating returning home via Seattle and the United States, let them be warned that the few experiences may be of interest. We had tickets as far as Duluth, engaged a drawing room compartment and rooms at the Butler hotel, Seattle, where we intended staying the night. Nothing was said by the agent, and on presenting our selves at the gangway we were told we could not go on board without an alien's card. Under any consideration, our baggage was on board, but we got this card fortunately in time before the boat started. The next day we found with difficulty the inspector's office. We received a card, which we had to take a considerable way, and pay two dollars, which will be increased to four dollars after July 1. It is not to undergo a medical examination of the most disagreeable description, and to answer a long series of questions. No civility is shown and the proceedings resemble that of a prisoner before a police inspector. All this occupied about an hour and a half, including waiting for the doctor, and then received a certificate enabling us to visit "God's own land." The officials assert that they are only carrying out the law to protect their country against undesirable immigrants. The ordeal is bad enough for gentlemen, but to expect a gently nurtured and delicate English lady to it is terrible even to think of. I venture to suggest that travelers should only travel by the C. P. R., where they can receive every comfort and consideration, and leave America to the select who are allowed to enter that happy land. I may add that all English passengers are treated with the greatest contempt and might have been waste paper.

J. F. BULMAN.

##### COWICHAN BAY FISHERY

Sir.—Having read in your paper some very peculiar criticisms regarding the license granted to the Capital City Canning & Packing company to take salmon in Cowichan bay, I cannot but express my writers have seriously or intelligently considered the matter.

Surely, in this new province, where industries are so much needed, and in a time when both the federal and provincial governments are considering every known method of encouraging and assisting the development of the natural resources of the province, and applying large portions of the revenue to that purpose, it is manifestly unreasonable that a few fishermen, for pastime should selfishly seek to deprive the province and people from securing a living, and also retard the development of our fisheries, even if the interference so much desired by our correspondents were met instead of our indignity.

In granting this license to the company the federal government has most carefully considered the sporting fish of Cowichan river, and the government has also considered the rights of the settlers, both white men and Indians, who are connected with the Fraser river and other parts of the province, to earn their living, with the same opportunity practically at their door. Fishing should be prohibited on the Fraser river on account of killing trout and steelhead.

#### NOTICE

Having as at this date sold the Dominion Real Estate Exchange, I return my best thanks to my numerous clients for their past support, a continuance of which I solicit for my successors, from, I can assure satisfaction. I refer to those having dealings with them. Any accounts contracted by me that may have been overlooked will receive immediate attention on rendering of statements to me addressed to the care of Mount Tohline post office.

S. G. FETHERSTON.

Victoria, B. C., June 18, 1907.

head salmon and preventing sporting fish from ascending the river to the trout streams above? Have sportsmen who flock to these streams ever complained? Has the yearly practice of fishing salmon, and that with seines entirely, in the Nimpkish river, further to the north of Vancouver Island, injured the opportunities for trout fishing and the angling pastime generally on that river? No, indeed; the game of the Nimpkish as a river where good sport is to be obtained is widespread, and for twenty years or more a salmon cannery has been in operation, and as evidence of the permanency of the industry insured by Dominion regulations, the pack of last season was greater than that of any preceding year. Coves go into the river with seines, which often stretch across the greater width of the river, and yet the sporting fishermen do not want for a catch. Could it reasonably be asked that the farmers should not extend their clearings, or that the lumber camps cease from operation, that the same lands being tilled or logged should not be interfered with in order that sportsmen should enjoy a few days' shooting? Does not the same reasoning as advanced by critics in your columns apply with equal force to the Cowichan bay? It would be as reasonable if we were to ask that every river in the province be closed to industries.

I quite appreciate the importance in value to this city and island, from a sporting standpoint, in a thorough protection of our fur, fin and feather for the benefit of our resident and passing anglers who visit this island, drawn hither by the reputation it has as a sportsman's paradise, and were I at all apprehensive that the privilege granted this company to fish in Cowichan bay and in the river and youth would in the slightest degree affect the permanency or diminish the importance of the Cowichan as an angling river, I would be one of the first to oppose the concession being granted; as a matter of fact, I consider that the license granted the Capital City Canning & Packing company will really improve the river, and it would be well for those who are protesting to first thoroughly understand that the Dominion regulations permit no commercial fishing before the 1st July, the season practically not commencing before July 15, with a thirty six hour weekly close time.

The permanency of the industry so far as this river is concerned will necessarily be of the first consideration with the licensees, for it is not likely they will wish to endanger the perpetuation of the fish life by excessive fishing, and as the Cowichan possesses to a limited extent a commercial capacity, which should be utilized.

The day when the deep sea fisheries of Vancouver Island shall be conserved for the benefit of fishing operations in other parts of the province has long since past, and Victoria is no longer merely a naval depot or depending on the income from a few regiments of soldiers for its commercial life.

The opposition suggested by H. F. Pullard in a recent issue of the Colonist to the operations of this company is, from my knowledge of the opinion of many of the residents of Cowichan Bay, very much overdone, and as regards the attitude of the provincial government, whatever their competency may be in respect to our deep fisheries, I am well satisfied from what I know of the calibre of the men who are controlling the affairs of British Columbia, that notwithstanding all reports of their being adverse to netting in Cowichan bay, that once they are well informed as to the physical conditions and commercial possibilities of the river, and the restrictions and conditions which attach to the Dominion license, there will not be the slightest friction between the local government and the Capital City Canning & Packing company.

RICHARD HALL.

Victoria, B. C., June 26, 1907.

## LADIES! We Want Name for New Range

We have under construction, patterns for the most modern and finest Steel Range ever placed on the Canadian market, and look to the ladies of Canada to supply a suitable name for it.

The name should be original and suitable for the highest grade of heavy cooking apparatus. A name that will look well in print, and one easily remembered.

This range will be made of heavy steel plate, with handsome cast ornamentation constructed with a view to meet the requirements of the GREAT WEST, but equally applicable to any part of Canada

### Conditions of Contest

- No. 1. Name, if one word, to contain not more than 8 letters. If two words, not more than 10 letters.
- No. 2. Not more than 3 names to be suggested by one person.
- No. 3. All replies must be addressed to our London office and mailed within two (2) weeks after this paper is published.
- No. 4. The judges in the contest will be officers of the McClary Company, assisted by two advertising experts.
- No. 5. Should the name decided upon be sent in by more than one person the prize will be given to the person whose name is first received.
- No. 6. Mention this paper.

The winning names will be decided upon without delay, and the results will be published in this paper within ten days or two (2) weeks afterwards. Address all communications to

**WANTED** A number of houses with one or more lots, in good locality, from \$2,000 to \$4,000.

## Last Chance

Until the first day of July we offer a very choice piece of acreage at Oak Bay, at \$500 per acre less than adjoining acreage, and at half the price of subdivided property in same vicinity.

### Points of Merit

1. When subdivided, all lots could have southern frontage.
2. All nice, level land.
3. Very fine outlook over Bay.
4. Only five minutes' walk from car line.
5. Street car line will pass the property very soon. We have this on authority.
6. It's the best money-maker in Victoria today. Investigate for yourself and compare values.

G. G. MELDRAM,  
Administrator of the estate of James Watson Meldram, deceased.

**A BY-LAW**  
To authorize the Sale of a Portion of the Driving Park not required for Corporate Purposes.  
The Municipal Council of the Corporation of the City of Victoria enacts as follows:  
1. All that piece or parcel of land situated in the City of Victoria, District of Oak Bay, Municipality, and being a portion of Subdivision eleven of Section 28, Victoria District aforesaid, purchased by the Park Company Limited, to which is more particularly described in a map or plan thereof deposited in the office of the City Engineer and numbered 127, may be sold or disposed of by the Council at such times and upon such terms and conditions in all things as the Council may from time to time by resolution determine.  
2. It shall be lawful for the Mayor upon the passing of any resolution of the Council sanctioning the terms of sale to execute, to the purchaser, or purchasers, such conveyance or conveyances as he may advise is or are proper for effectuating any sale or sales under the provisions of this By-law; and upon payment of the conveyance money upon any sale, to the City Treasurer, to execute and cause the Corporate seal to be affixed to a conveyance of the property sold and any such conveyance when executed, shall effectually vest the lands granted thereby in the purchaser for an estate in fee simple free from all incumbrances, but no covenant for title shall be given by or on behalf of the Corporation.  
3. All moneys received by the Corporation from the sale of the said described piece of land or any portion thereof, shall be paid into and form part of the general revenues of the City.  
4. This By-law shall before the final passing thereof, receive the assent of the members of the said Corporation in the manner provided for in the Municipal Clauses Act and shall take effect on the day after the final passing thereof by the Council of the said Corporation.  
5. This By-law may, for all purposes, be cited as "The Sale of Lands Authorization By-law (No. 1), 1907."  
Passed the Municipal Council the 17th day of June, 1907.

**NOTICE**  
Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Cornerant Street, in Room No. 7, on Wednesday, the 3rd day of July, 1907; that the poll will be kept open between the hours of 9 a.m. and 7 p.m., and that William W. Northcott has been appointed the Returning Officer of the said vote.  
WELLINGTON J. DOWLER  
City Clerk's Office, Victoria, B.C., June 19th, 1907.

**A BY-LAW**  
To authorize the Sale of the Eastern portion of the James Bay Mud Flats, not required for Corporate purposes.  
The Municipal Council of the Corporation of the City of Victoria enacts as follows:  
1. All that piece or parcel of land situated in the City of Victoria, and being all that portion of the said Mud Flats, the property of the Corporation as aforesaid, to the Eastward of the continuation of Douglas street and is more particularly described in a map or plan deposited in the office of the City Engineer and numbered 135, may be sold or disposed of by the Council at such times, and upon such terms and conditions in all things as the Council may from time to time by resolution determine.  
2. It shall be lawful for the Mayor, after the passing of any resolution of the Council sanctioning the terms of sale to execute to the purchaser such conveyance as he may advise is proper for effectuating any sale under the provisions of this By-law, and upon payment of the consideration money upon any sale, to the City Treasurer, to execute and cause the corporate seal to be affixed to a conveyance of the property, when sold, and any conveyance when executed, shall effectually vest the lands granted thereby in the purchaser for an estate in fee simple free from all incumbrances, but no covenant for title shall be given by or on behalf of the Corporation.  
3. All moneys received by the Corporation from the sale of the said described piece of land or any portion thereof, shall be paid into and form part of the general revenues of the City.  
4. This By-law shall before the final passing thereof, receive the assent of the members of the said Corporation in the manner provided for in the Municipal Clauses Act and shall take effect on the day after the final passing thereof by the Council of the said Corporation.  
5. This By-law may, for all purposes, be cited as "The Sale of Lands Authorization By-law (No. 1), 1907."  
Passed the Municipal Council the 17th day of June, 1907.

**NOTICE**  
Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Cornerant Street, in Room No. 7, on Wednesday, the 3rd day of July, 1907; that the poll will be kept open between the hours of 9 a.m. and 7 p.m., and that William W. Northcott has been appointed the Returning Officer of the said vote.  
WELLINGTON J. DOWLER, C.M.C.  
City Clerk's Office, Victoria, B. C., June 19th, 1907.

**A BY-LAW**  
To enable the Borrowing of a Further Sum of \$50,000, in aid of the Frontage Rents or Taxes and Sewer Connection Rental with the Guarantee of the City of Victoria.  
Whereas it is intended to borrow upon the security of the frontage rents or taxes and sewer connection rentals imposed by the Sewers By-Law, 1902 (No. 400), the further sum of \$50,000, to be expended in the extension of the sewers within the City of Victoria.  
And whereas it is proposed to give the guarantee of the Corporation for securing the moneys so intended to be borrowed.  
And whereas the said "Sewers By-Law, 1902" was validated by Section 29 of Chapter 42 of the Statutes of 1903-4 in so far as frontage rents or taxes and sewer connection rentals were thereby assessed and levied upon the owners of land and buildings, and power was given by the said section to revoke and rescind the assessment and levy made by the said recited By-Law upon owners of land and buildings, and such assessment and levy upon said occupants accordingly revoked by the "Sewers By-Law, 1902, Amendment By-Law, 1904" (Numbered 421);  
And whereas the amount of the said frontage rents or taxes and sewer connection rentals, chargeable for the year 1905 is estimated at \$17,600, and sums aggregating \$300,000 have been already raised upon the security of the said frontage rents or taxes and sewer connection rentals under the provisions of the Sewer Loan Guarantee By-Law, 1902" (Numbered 402) and the "Sewer Loan Guarantee By-Law, 1903" (Numbered 430).  
And whereas the moneys intended to be borrowed pursuant to this By-Law will be primarily charged and secured upon the frontage rents or taxes and sewer connection rentals to pay the interest upon the said debts aggregating \$300,000, and to repay the said debt by sinking fund and by way of the said additional sum of \$50,000 and repay the Victoria additional sum by sinking fund is \$2,328, making together the annual sum of \$16,296, and it is estimated that there will not be any deficiency.  
And whereas it is proposed to borrow the said sum of \$50,000, upon debentures as hereinafter appearing.  
And whereas, by the said recited By-Law No. 400, the said frontage rents or taxes and sewer connection rentals, when received are directed to be carried to a joint fund entitled "The Sewer Rental and Sewer Tax Fund," and are to be expended in the extension of the sewerage system of the city, and the construction and maintenance of the same, and in making provision for the payment of principal, interest and sinking funds thereon, and the said moneys are to be secured by the same, in such manner and at such time or times as the Municipal Council shall from time to time think expedient.  
And it is deemed by the Council to be effect to such provisions:  
Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:  
1. The moneys raised under this By-Law shall be expended in the construction of sewers and for the purposes generally mentioned in this By-Law, and for no other purpose.  
2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the security, primarily, of the said frontage rents or taxes and sewer connection rentals, and by way of guarantee upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons, or body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole sum of \$50,000, currency or sterling money (at the rate of 25 cents to the one pound sterling) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation, for the purchase and issue of debentures referred to. The said guarantee of the City to be contained in the said debentures shall be in the following terms, or as near thereto as may be:  
"The payment of the principal moneys and interest thereon under this debenture at the respective dates when the same fall due under the terms of this debenture shall be guaranteed by the Corporation of the City of Victoria."  
3. It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, and for the purpose, however, the sum of \$50,000, either in currency or sterling money (at the rate of 25 cents to the one pound sterling), and the amount of \$500,000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.  
4. The said debentures shall bear date of the day after the final passing of this By-Law, and shall be payable in fifty years from the said date, in such place either in the Dominion of Canada, Great Britain or the United States of America, as may be designated thereon, and shall be secured by the coupons or the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.  
5. The said debentures shall bear interest at the rate of four per cent. per annum from the date thereof, which interest shall be payable half yearly at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be expressed in the debenture and coupon.  
6. It shall be lawful for the said Mayor to cause the said debentures and the interest coupons, either of or both, to be made payable at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be desired.  
7. It shall be lawful for the Mayor of the said Corporation to dispose of the said debentures at a rate below par, and to authorize the Treasurer to pay out the sums so raised by the sale of the said debentures all expenses connected with the preparation and lithographing of the debentures and coupons, and any discount or commission or other charges incidental to the sale of the said debentures.  
8. So much of the moneys collected for and received by the City Treasurer under the provisions of the said "Sewers By-Law, 1902" (No. 400) as shall, after complying with the directions contained in the said "Sewer Loan Guarantee By-Law, 1902" and "Sewer Loan Guarantee By-Law, 1903," be sufficient to provide the annual interest on the moneys from time to time borrowed on the security of the said debentures and the annual sinking fund for the payment of the principal moneys due upon the said debentures shall, immediately on receipt thereof, be set aside by the said City Treasurer, and placed by him to a separate account with the bankers of the Corporation of Victoria, and thereon shall be paid the coupons or interest upon the said debentures or borrowed moneys as the same shall from time to time fall due, and the moneys to provide the said annual sinking fund shall be placed or deposited, and the interest thereon shall be allowed to accumulate, and thereon shall be paid the principal moneys borrowed, as the said debentures shall from time to time become due.  
9. This By-Law shall, before the final passing thereof, receive the assent of the members of the said Corporation, in the manner provided for in the Municipal Clauses Act, and shall take effect on the day after the final passing thereof.  
10. This By-Law may not be altered or repealed save with the consent of the Lieutenant-Governor in Council.  
11. This By-Law shall be cited as the "Sewers Loan Guarantee By-Law, 1907."  
Passed the Municipal Council the 17th day of June, 1907.

**NOTICE**  
Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Cornerant Street, in Room No. 7, on Wednesday, the 3rd day of July, 1907; that the poll will be kept open between the hours of 9 a.m. and 7 p.m., and that William W. Northcott has been appointed the Returning Officer of the said vote.  
WELLINGTON J. DOWLER, C.M.C.  
City Clerk's Office, Victoria, B. C., June 19th, 1907.

And whereas it is proposed to borrow the said sum of \$50,000, upon debentures as hereinafter appearing.  
And whereas, by the said recited By-Law No. 400, the said frontage rents or taxes and sewer connection rentals, when received are directed to be carried to a joint fund entitled "The Sewer Rental and Sewer Tax Fund," and are to be expended in the extension of the sewerage system of the city, and the construction and maintenance of the same, and in making provision for the payment of principal, interest and sinking funds thereon, and the said moneys are to be secured by the same, in such manner and at such time or times as the Municipal Council shall from time to time think expedient.  
And it is deemed by the Council to be effect to such provisions:  
Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:  
1. The moneys raised under this By-Law shall be expended in the construction of sewers and for the purposes generally mentioned in this By-Law, and for no other purpose.  
2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the security, primarily, of the said frontage rents or taxes and sewer connection rentals, and by way of guarantee upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons, or body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole sum of \$50,000, currency or sterling money (at the rate of 25 cents to the one pound sterling) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation, for the purchase and issue of debentures referred to. The said guarantee of the City to be contained in the said debentures shall be in the following terms, or as near thereto as may be:  
"The payment of the principal moneys and interest thereon under this debenture at the respective dates when the same fall due under the terms of this debenture shall be guaranteed by the Corporation of the City of Victoria."  
3. It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, and for the purpose, however, the sum of \$50,000, either in currency or sterling money (at the rate of 25 cents to the one pound sterling), and the amount of \$500,000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.  
4. The said debentures shall bear date of the day after the final passing of this By-Law, and shall be payable in fifty years from the said date, in such place either in the Dominion of Canada, Great Britain or the United States of America, as may be designated thereon, and shall be secured by the coupons or the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.  
5. The said debentures shall bear interest at the rate of four per cent. per annum from the date thereof, which interest shall be payable half yearly at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be expressed in the debenture and coupon.  
6. It shall be lawful for the said Mayor to cause the said debentures and the interest coupons, either of or both, to be made payable at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be desired.  
7. It shall be lawful for the Mayor of the said Corporation to dispose of the said debentures at a rate below par, and to authorize the Treasurer to pay out the sums so raised by the sale of the said debentures all expenses connected with the preparation and lithographing of the debentures and coupons, and any discount or commission or other charges incidental to the sale of the said debentures.  
8. So much of the moneys collected for and received by the City Treasurer under the provisions of the said "Sewers By-Law, 1902" (No. 400) as shall, after complying with the directions contained in the said "Sewer Loan Guarantee By-Law, 1902" and "Sewer Loan Guarantee By-Law, 1903," be sufficient to provide the annual interest on the moneys from time to time borrowed on the security of the said debentures and the annual sinking fund for the payment of the principal moneys due upon the said debentures shall, immediately on receipt thereof, be set aside by the said City Treasurer, and placed by him to a separate account with the bankers of the Corporation of Victoria, and thereon shall be paid the coupons or interest upon the said debentures or borrowed moneys as the same shall from time to time fall due, and the moneys to provide the said annual sinking fund shall be placed or deposited, and the interest thereon shall be allowed to accumulate, and thereon shall be paid the principal moneys borrowed, as the said debentures shall from time to time become due.  
9. This By-Law shall, before the final passing thereof, receive the assent of the members of the said Corporation, in the manner provided for in the Municipal Clauses Act, and shall take effect on the day after the final passing thereof.  
10. This By-Law may not be altered or repealed save with the consent of the Lieutenant-Governor in Council.  
11. This By-Law shall be cited as the "Sewers Loan Guarantee By-Law, 1907."  
Passed the Municipal Council the 17th day of June, 1907.

and sewer connection rentals imposed by the Sewers By-Law, 1902 (No. 400), the further sum of \$50,000, to be expended in the extension of the sewers within the City of Victoria.  
And whereas it is proposed to give the guarantee of the Corporation for securing the moneys so intended to be borrowed.  
And whereas the said "Sewers By-Law, 1902" was validated by Section 29 of Chapter 42 of the Statutes of 1903-4 in so far as frontage rents or taxes and sewer connection rentals were thereby assessed and levied upon the owners of land and buildings, and power was given by the said section to revoke and rescind the assessment and levy made by the said recited By-Law upon owners of land and buildings, and such assessment and levy upon said occupants accordingly revoked by the "Sewers By-Law, 1902, Amendment By-Law, 1904" (Numbered 421);  
And whereas the amount of the said frontage rents or taxes and sewer connection rentals, chargeable for the year 1905 is estimated at \$17,600, and sums aggregating \$300,000 have been already raised upon the security of the said frontage rents or taxes and sewer connection rentals under the provisions of the Sewer Loan Guarantee By-Law, 1902" (Numbered 402) and the "Sewer Loan Guarantee By-Law, 1903" (Numbered 430).  
And whereas the moneys intended to be borrowed pursuant to this By-Law will be primarily charged and secured upon the frontage rents or taxes and sewer connection rentals to pay the interest upon the said debts aggregating \$300,000, and to repay the said debt by sinking fund and by way of the said additional sum of \$50,000 and repay the Victoria additional sum by sinking fund is \$2,328, making together the annual sum of \$16,296, and it is estimated that there will not be any deficiency.  
And whereas it is proposed to borrow the said sum of \$50,000, upon debentures as hereinafter appearing.  
And whereas, by the said recited By-Law No. 400, the said frontage rents or taxes and sewer connection rentals, when received are directed to be carried to a joint fund entitled "The Sewer Rental and Sewer Tax Fund," and are to be expended in the extension of the sewerage system of the city, and the construction and maintenance of the same, and in making provision for the payment of principal, interest and sinking funds thereon, and the said moneys are to be secured by the same, in such manner and at such time or times as the Municipal Council shall from time to time think expedient.  
And it is deemed by the Council to be effect to such provisions:  
Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:  
1. The moneys raised under this By-Law shall be expended in the construction of sewers and for the purposes generally mentioned in this By-Law, and for no other purpose.  
2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the security, primarily, of the said frontage rents or taxes and sewer connection rentals, and by way of guarantee upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons, or body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding in the whole sum of \$50,000, currency or sterling money (at the rate of 25 cents to the one pound sterling) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation, for the purchase and issue of debentures referred to. The said guarantee of the City to be contained in the said debentures shall be in the following terms, or as near thereto as may be:  
"The payment of the principal moneys and interest thereon under this debenture at the respective dates when the same fall due under the terms of this debenture shall be guaranteed by the Corporation of the City of Victoria."  
3. It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, and for the purpose, however, the sum of \$50,000, either in currency or sterling money (at the rate of 25 cents to the one pound sterling), and the amount of \$500,000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.  
4. The said debentures shall bear date of the day after the final passing of this By-Law, and shall be payable in fifty years from the said date, in such place either in the Dominion of Canada, Great Britain or the United States of America, as may be designated thereon, and shall be secured by the coupons or the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.  
5. The said debentures shall bear interest at the rate of four per cent. per annum from the date thereof, which interest shall be payable half yearly at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be expressed in the debenture and coupon.  
6. It shall be lawful for the said Mayor to cause the said debentures and the interest coupons, either of or both, to be made payable at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be desired.  
7. It shall be lawful for the Mayor of the said Corporation to dispose of the said debentures at a rate below par, and to authorize the Treasurer to pay out the sums so raised by the sale of the said debentures all expenses connected with the preparation and lithographing of the debentures and coupons, and any discount or commission or other

# To Householders

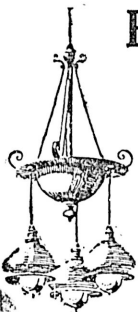

Summer has set in, with the customary hot weather. One method of keeping cool is to substitute a gas range for the coal and wood burner. Turn the valve, strike a match, put on your kettle, and there you are—Five o'clock tea is ready.

### MANY COMPLAIN ABOUT HOURS FOR SPRINKLING

Citizens Are Not Satisfied With New Regulations—Mayor's Statement

The new sprinkling hours have brought a large increase in the water commissioner's and the mayor's mails. The objections raised are numerous and it is doubtful if the new regulations will satisfy any more people than the old.

The city officials still cling to the conviction that the present hours are about the best that can be devised. To those complaining there is the one exhortation, "be patient."

The mayor and council promise that as soon as it can be learned where the city stands in its contention with the Esquimalt Water Works Company, action will be taken looking towards a better supply.

The case between the city and the water company with regard to the taking of water records comes up for hearing before the privy council next week. W. J. Taylor of Eberts & Taylor, who will act for the city in association with a London counsel, left for London some weeks ago. Copies of the argument of both the city and the water company have been received by the city solicitor.

The following letter from Mayor Morley to the Colonist is self explanatory:—  
Sir—While not wishing to enter into a controversy on the matter of water works regulations, knowing the same would not assist the matter, I would thank you to correct the impression made by the statement of Col. Gregory in his letter to your paper this morning where he says: I asked the mayor

this question this morning, his reply was another question, viz: Do you expect us to stay up all night to see that the water is not wasted? Certainly I do. Unless inspectors are supervising the use of the water by night as well as by day the regulations will never be enforced."

I wish to state that I made no such statements as represented. What I did say was the following. Col. Gregory asked me why they decided to stop sprinkling during night hours. My reply was that people would not stay up all night to see that the water was not wasted. The consequence was that the city would have to stop sprinkling at night to regulate the water. As regards my statement about inspectors I told him distinctly that extra inspectors would be hired to ensure the carrying out of the regulations.

Naturally there are a great many complaints from people that the hours set are very inconvenient. This is unavoidable, as a moment's thought would assure anyone that where it is necessary to make special regulations for the sprinkling hours, other things besides people's convenience have to be considered.

For instance, the city time the higher levels can have adequate force for sprinkling, is during the hours when the Yates street pump is at work. This pump can be allowed to work only before and after business hours, and when pumping it draws the water from the business portion of the city, consequently its hours of emptying are from 5 a. m. to 3 a. m. and from 5 p. m. to 10 p. m.

During the morning hours it was deemed expedient to give the two lower levels the pump to fill the private tanks on the higher levels and the remaining hours for the higher levels to sprinkle. If the non-metred users were permitted to also sprinkle from 7 to 9, the force would naturally be inefficient at many points. Therefore non-metred users are given two hours from 9 to 11. As the higher levels are practically metred throughout, it will be seen that from 9 to 11 after pumping to the higher levels ceases, will give the best pressure all over the remainder of the city for all purposes.

As regards the evening hours of sprinkling, it was thought best to give three hours to metred and three hours to unmetred, and as the Yates street pump could not start up before 5 o'clock to give pressure to the higher levels, it was thought best to give the first three hours to the unmetred and from 7 to 10 to the metred. There has never been any wisdom in allow-

### A Safe Drink

ing water to be used for sprinkling purposes after 10 p. m. as it only serves to reduce the supply.

I know and regret the inconvenience to many, but if those who are given to complain had experienced, as has the writer, some years in irrigating country where it was necessary to take water only once in two weeks or a month, and at whatever hour in the 24 his turn might come, I am sure they would think they were in closer under the present restriction. I sincerely hope the citizens will realize that this is a necessary expedient and best for all concerned, though open perhaps to slight modifications if found advisable and that they will one and all, instead of making the task harder by complaining, do all they can to assist the authorities in tiding over in the best way possible until an unlimited supply can be obtained.

Every effort is being made to be prepared to push the obtaining of a larger supply the moment the position of the city as to its rights is known.

A. J. MORLEY, Mayor.

### REWARD IS OFFERED FOR STOLEN JEWELS

No Solution of Mysterious Robbery of Mrs. Victor Eliot's Trunk

A reward of \$250 is offered for information that will lead to the arrest and conviction of the person who stole the jewels and heirlooms from Mrs. Victor Eliot's trunk, which was robbed somewhere between Liverpool, England, and Victoria.

A full description of all the missing articles has been furnished Chief Langley, who will send out circulars to the police departments of every city in Canada, the United States and the old country.

No solution of the mystery has yet been reached, but one theory is that the jewels were taken from the trunk before it was delivered on board the Empress of Britain at Liverpool. The list of presents which Mrs. Eliot received at her wedding was published in London newspapers, and it is supposed that the robbery was deliberately planned by some of the daring thieves who make it a practice to follow the movements of trans-Atlantic passengers who carry valuables with them.

The trunk containing the jewels was insured for \$1,500.

The Jewish World, of London, Eng., says that the will of Daniel Oslris, of Paris, who died some time ago, has been proved at \$13,000,000. He left \$5,000,000 to the Pasteur Institute.

### PERSONAL MENTION

A. D. McRae, a prominent land dealer of the Northwest, returned yesterday from the West Coast, where he has been investigating conditions from the standpoint of an investor. He leaves this morning for Winnipeg, and will return in a couple of months.

J. Revalk, of San Francisco, with Mrs. Revalk, has been touring the island for the past few days. Mr. Revalk is interested in several of the copper properties at Cowichan. He expects to visit Victoria later in the season, when he will tour the island in his auto.

The engagement is announced of Miss E. B. Roberts, daughter of the late Capt. T. W. Roberts, to J. W. York, son of Joseph York of this city.

L. D. Taylor, managing director of Vancouver World, is in the city a guest at the King Edward Hotel.

Miss Fraser, late of the city public school teaching staff, and now connected with the Seattle high school, was a visitor at the South Park school during the closing exercises yesterday.

A. J. O'Reilly has removed from St. Joseph's hospital to his home on Pleasant street and is convalescent.

### Lake Steamer Burned

Sault Ste. Marie, June 28.—Word reached here today of the burning of the steamer Batchawanna, of the Ganley line, off Copper Line point, Lake Superior. The craft was destroyed to the water's edge, but the crew reached shore by launching the small boats. The steamer was loaded with ore for the Algoma Steel Works. The origin is supposed to have had its origin through the explosion of a lamp. The owners have not yet estimated the loss, which is covered by insurance.

### Letters Crowded Out

Some letters received are unavoidably held over for another issue.

### PRISONER'S ACCUSER

FAILS TO BE PRESENT When Wanted in Police Court

B. Marmaas is Not Within Reach of the fracas in the Regent saloon last week, out of which a charge of attempted murder was evolved, is missing, and the police are inclined to believe that he has left the city.

V. Steemeteere, the man who is alleged to have attacked Marmaas with a long and ugly looking knife, and who was put out of action by a blow on the head with a cuspidor, was in court yesterday morning, prepared to undergo the ordeal of a preliminary hearing, but the prosecutor was no where within sound of the voice of the officer who called the name loudly three times.

The chief of police was unable to explain the absence of Marmaas and asked for an adjournment of the case till Wednesday next in order that he might have time to investigate. The request was granted.

A fellow countryman of the two principals to the fracas, who was present in court said that Marmaas had left the country because he had told the police a false story about the fight with Steemeteere, and knowing the truth had been found out, was afraid to appear at the trial.

### Lost Money on Boat.

While crossing from Vancouver to this city yesterday on the Princess Victoria, a gentleman named McGregor found his pocket book missing. Later it was picked up by a passenger on board and returned to him. When he had inspected it, he claimed that there was \$60 missing, though a £200 cheque and some other negotiable paper had not been disturbed.

### Meat Prices Will Drop.

The first week in July will see a substantial decrease in the price of meat in this city. This is due to the fact that grass fed cattle are now coming in. The reduction will range from one to one and three-quarters of a cent a pound for beef and a rather slighter decrease for lamb and mutton. The price of pork will remain the same. The same decrease will go into effect on the mainland according to an announcement of Pat Burns of Calgary, who passed through Vancouver en route to this city yesterday.

### Native Sons' Convention.

The annual convention of the Grand Lodge of Native Sons of British Columbia will be held in Vancouver on Monday, July 22nd. Delegates will be present from the various posts in Bri-

tish Columbia. Victoria, Nanaimo and Vancouver will be represented, while delegates are expected from points in the Interior. The Grand Lodge officials will be in session for one day. The reports of the retiring officers will be received and officers elected for the ensuing year.

### WEDDING ANNOUNCEMENT

Bell-Foley.

At the bishop's residence, Seattle, on June 19th, James Lancelot Bell and Miss Emily Alice Foley were united in marriage by Rev. Father Henly. Mr. Bell holds a responsible position as lumber surveyor with headquarters at Tacoma. Miss Bell formerly resided in Victoria, being a daughter of Capt. M. and Mrs. Foley, who at present live in Tacoma.

### Cronk-Chapman.

The marriage of Clayton W. Cronk and Miss Clara Chapman was celebrated Thursday at the residence of the bride's parents, Oaklands, by the Rev. G. K. B. Adams. Miss Belle Chapman, sister of the bride, acted as bridesmaid, while Mr. W. B. Wellwood supported the groom. The young couple will reside on Topaz avenue.

### Longboat's Change.

Hamilton, Ont., June 28.—Tom Longboat has announced that he will forsake Toronto and will make his home in Hamilton. He has a position in the shipping department of a foundry, but he did not report for duty yesterday. He will not enter any races for some time, until he gets into shape.

### Victim of Pneumonia.

Toronto, June 28.—James Macdonald, the well known business agent of the Toronto Street Railway Employees' Union, died this morning of pneumonia. Macdonald went to Winnipeg at the time of the street railway strike there and took a prominent part as adviser of the strikers.

### PEN-ANGLE

What you spend for underwear buys most real value in fit, comfort, service—in only when each garment bears the trade mark in red that guarantees you satisfaction or your money back.

Made in many fabrics and styles, at various prices, in form-fitting sizes for women, men and children. See that the PEN-ANGLE is there—it insures your money's worth.
